

THE SINGING SMITHS from Kilbride, a tuneful family quartette, sang several selections at the Boyne Community Centre Talent Night held in Percy W. Merry school on Friday evening. Shown glancing over their song sheets before the start of the program are left to right, Danny, Brian, Peggy-Anne and Lynda. About 32 numbers were performed during the evening by nearly 40 performers. Acts ranged from sword dances to solos to instrumental duets.

A LITTLE BIT OF IRISH cropped up at the annual Talent Night sponsored by the Boyne Community Centre on Friday evening. Dapper Suzanne Ricketts as an Irish Leprecaun and Marilyn Martin as a fair Irish colleen, provided some lively entertainment when they danced an Irish lilt.

A HIGH-STEPPING Hornpipe by Susan Currie and Kathy Sparling, had the audience of more than 100 tapping their toes vigorously as area performers attended the annual "Talent Night" at Percy W. Merry School on Friday evening. Rev. B. A. Nevin was master of Ceremonies for the evening.

The BIBLE Today

"How to read the whole Bible in one year" is one of the themes of the Canadian Bible Society during the sixtieth anniversary of the Society in Canada. A simple plan has been suggested by the Reverend Professor A. R. Cragg of Winnipeg which is recommended by the Bible Society for use through 1964.

In order to read the 1,189 chapters of the Bible in one year, says Prof. Cragg, each morning read one chapter and each evening throughout the year, read two chapters. On Sundays until the end of September two additional chapters should be read, that is, five chapters instead of the usual three. On the Sundays of the last three months of the year, four chapters a day should be read.

This plan is the result of many requests for suggestions as to how to read the whole Bible in one year. Other plans have been prepared such as: "Read three pages a day." There are approximately 1,000 pages in the average Bible.

Many people regularly read the Bible from Genesis to Revelation each year. One successful man in Toronto has done this for some 30 years. A gentleman in Chicago after reading it through each year for a number of years decided to write the whole Bible out by hand in order that its message might impress itself more clearly on his mind.

it's a FACT

The earliest known system of laws, formed about 1700 B.C. by Hammurabi, King of Babylon, was a code (a complete list of laws) defining personal rights, property rights, contracts, etc. During the 12th century A.D., a body of laws called the common law grew up from the decisions of the English king's court. These decisions were based on custom or the application of reason to custom. Our present American laws are based, at least in part, on this English system of common law.
