LOWVILLE TIGERS captured top bowling honors in the Industrial League season by being declared top team for the season and also for the finals. Shown at their wind-up banquet in the Union Hall, Milton on Saturday are, in the back Stu King, Jack King, Cec. King and Jim Powell. In the front are Jim Coulson and Ron Coulson. Individual trophies were presented for the members of the top season's team, with a large trophy for the top team in the finals.

Egg Marketing Plan

Call Producer Vote in June

Acting on the request of the Ontario Poultry Producers' Association, the Ontario Farm Products Marketing Board announced today that it had approved of a vote being held on the proposed establishment of an Egg and Fowl Marketing Plan.

The vote, which will be held June 22 to 26 inclusive, will be on the proposals discussed at the public meetings held through the

province during February and March.

The aims and objectives of the proposed marketing plan provide for the promotion and advertising of eggs and fowl; provision for research in marketing and the establishment of an Egg Industry Advisory Committee. In addition the plan would provide for a study of the terms, conditions, agreements, charges and costs relating to the production and marketing of eggs. Provision is also made for the setting up of the necessary machinery to finance the program by means of a two cents license fee on fowl.

During the week of the voting, ballot boxes will be open from

9:00 a.m. to 5:00 p.m. in each County. Voting will take place in the office of the local Agriculture Representative. In the case of large Counties, provision will be made for additional polling booths, the location of which will be announced at a later date.

Must be Producer

Each producer of eggs will be qualified to vote on certifying, by registration, that he is a producer under the terms of the proposed legislation.

"The terms of the proposed plan were thoroughly outlined at the public meetings held through the province," said an official of the Ontario Farm Products Marketing Board.

O.K. Funds for Camp Pool

Consider Merging Scouts with Oakville

By Bob Watkins

Scouting in Milton has reached moment of decision — disband or affiliate with the Oakville District Council. This was disclosed at a public meeting last Wednesday evening in the Scout Hall, attended by twenty interested persons, including two newsmen. Public apathy, and a lack of sponsorship have created a financial burden the local Boy Scouts should not have to carry.

Acting Chairman Brian Hatfield outlined the advantages of affiliation with the Oakville District Council, the major one being that the latter group would assume responsibility for the accounts payable of the local organization. The Milton Scouts would also receive the needed supervision of a District Scoutmaster, and have access to all the Oakville facilities, including camps and training courses. In effect, it would release the local Groups from a goodly amount of fund raising activities, and allow them to fore fully follow the principals of Scouting.

Control of Hall

In return for the takeover, the Milton Groups would be assessed a yearly fee commensurate with the operational costs of the Milton Scout Hall, as well as give the Oakville District Council control of the building. Although there would be no interference with the present schedule of us-

age, the District Council would make use of the Hall as they see fit.

An important segment of the meeting was devoted to the election of a Chairman and Secretary-Treasurer for the House Committee, to replace the recently resigned Roger Young and Sheilah Purdy. Fred Bell was acclaimed Chairman, and Gladys Lewis and Mary Alcock agreed to split the office of Secretary-Treasurer between them. Besides these three, the Executive is now composed of Vice-Chairman Lou Berrube and Brian Hatfield, and Financial Chairman, Phil Garber. In addition, the constitution was amended to give Group Committee members a vote at House Committee meetings.

Okay Swimming

The new Executive was asked to advance \$200 to allow work to proceed at the Milton Scout Camp. This had been subject to some dissension, but was cleared up when it was explained that a previous request for financial assistance had not been properly presented to a House Committee meeting. The major portion of the requested sum is to pay for excavation of the pool site, since a goodly amount of the materials and labour will be donated. Also the Ladies' Auxiliary indicated a desire to help out financially.

The House Committee voted to approve the expenditure, after

it was agreed to appoint a project co-ordinator and keep the Executive informed of progress.

In an interview after the meeting, Brian Hatfield expanded on the affiliation situation with Oakville. Under the proposed setup, the Milton Scout Groups, of which there are three, would be allowed to retain the proceeds of their annual Apple Day drive. This should be enough to provide the almost 400 Scouts and Cubs with a sufficient budget for their year's activities.

Money for Hall

The local Groups and leaders put a lot of time and effort into paper drives and the like, in order to raise money. It's quite disheartening to then have to put three quarters of the funds into maintenance of the Scout Hall, which last year cost in excess of \$1,300.

The Vice-Chairman stated that it was unconstitutional for Scout Groups to own real estate, and that it was customary for bodies of interested citizens, such as Service Clubs, local industries, or Churches to sponsor Scout Groups. The primary function of these sponsorships is to provide a suitable meeting place for the boys. Since no such local organization has evidenced any interest in the Scouting movement, the Milton Groups have little recourse except to ask the Oakville District Council for affiliation. As this body has expres-

sed willingness to assume control of the affairs of the Milton Boy Scouts, under the terms outlined, the local Executive has only to approve the merger.

TREE PLANTING

Halton Region Conservation Authority workmen will soon be busy planting trees around the Dave Murray reported this week that 120,000 trees will be planted on 15 private properties, plus authority lands. The trees are available through the Department of Lands and Forests, and the Conservation Authority men do the planting.

INDIVIDUAL WINNERS in the Industrial League bowling season were honored at the concluding banquet and dance Saturday. Buck Gervais won the season's high single title with Stu King taking high average and Cec. King high triple.

Library Notes

Your library in the bright airy new location in the former Adams store is yours to use.

The Board is to be commended on the fine attractive surroundings they have given us to house the books of the Milton Public Library. No longer do you have to descend a flight of 15 cement steps to the basement of the town hall — we are now on street level.

If you possessed a valuable piece of property and neglected it, you would consider yourself zany. Milton Public Library has books that can be of value to you only if you read them. And like a home, your education needs renewing — that college veneer can't stand weathering without it.

None for Edison

But you don't have a college career, neither did Thomas Edison. But Thomas Edison did make use of the public library. Why don't you?

Here we are, all of us well nourished physically. If our appetite fails us, we consider ourselves ill. As your body needs food, so does your mind. The part of the body, which wouldn't function without it. And when you read books, do you read for amusement only, or to broaden your outlook on life? Do give your brain mental food — food for thought? Now is a good time to start.
