

Insure Summer of Fun, Pleasure Make Sure Boats are Seaworthy

Over the first holiday weekend of the boating season thousands of cottages have been opened up for the first time all over Ontario. Plans are being made for a summer of relaxation and enjoyment on our wonderful waterways. The Ontario Safety League would like to remind everyone that only the right approach to the use of boats, motors and water skis will insure a summer of fun and pleasure unmarred by tragedy.

The first step is to inspect the hull of your boat thoroughly to be sure it is in seaworthy condition, and if not, make the necessary repairs before putting it in the water. Then check over your motor and all safety equipment, making necessary repairs and replacements. Remember that the Law requires a pair of oars or paddles, a bailing bucket or bilge pump and a government approved lifejacket or lifesaving cushion for each passenger in the average outboard powered boat.

And just a word of warning, if your lifejackets or cushions are not in good condition replace

them even if they are government approved. Mooring and anchor lines are important pieces of equipment for the safety of both craft and passengers, if they are not in good condition buy new ones.

It is advisable to carry an approved fire extinguisher in any gasoline powered craft even if your boat is not of the size and type where it is required by law. Carbon tetrachloride extinguishers are no longer acceptable for equate tool kit and spare sheer use on pleasure boats. An adpins could save you lost time and embarrassment.

If you are operating your boat at night it is important that navigation lights are in good condition and burning, red and green lights in the bow and a white light showing all around the horizon on the stern.

The second step in insuring your pleasure and enjoyment for the summer is to know the Rules-of-the-Road and Rights-of-Way and practice them. This knowledge combined with common sense and courtesy on the water will make for a boating season of fun and safety.

—Beautiful yellow flowers are providing a colorful blanket of blossoms in lawns, fields and roadsides throughout the town and district. Most people call them dandelions. If they're on your lawn they get called worse names, sometimes.

HARLEY to HALTON

By DR. HARRY HARLEY, M.P.

The past week in the House of Commons has been generally a non-partisan one. Matters before the Parliament are mainly small Bills and are making some progress. One day last week was devoted to the estimates of the Department of Agriculture.

Another wheat sale to China has been announced by the Minister of Trade and Commerce, the Honourable Mitchell Sharp, which will be of great value mainly to the western farmer. Agricultural policies must be brought forward to benefit the eastern farmer in the near future.

Farm Credit Act

There is proposed legislation on the Order Paper at the present time to amend the Farm Credit Act to increase the authorized capital to 24 million dollars and to increase the borrowing capacity to 400 million dollars. This will also double the maximum loan limits available under Part II and Part III of the Act.

The Defence Committee has again been set up. The next matter for debate were the amendments to the National Defence Act which will make one Chief of Staff for the three services. This was given a second reading after two days of debate and referred for further study to the Defence Committee. This amalgamation, I am sure, is a good move.

The argument that you cannot expect a soldier to do a naval job is no more true than you would expect an infantryman to drive a tank. The Dental Services have always been tri-service, Dental Corps personnel serving in the Army, Navy and Air Force. It is interesting to note that no matter where they serve, they wear the Army uniform and they move around on posting between the three services.

Try Speed-Up

In the House, we are now proceeding with a six-week experiment in new parliamentary procedure. This is an attempt to find ways of speeding up the work of the House and force Members to exercise a little more self-restraint. Specifically, the Speaker is now empowered to limit the daily question period; in exchange, we get three half-hour periods — after ten o'clock at night — for brief debate on matters that Members consider pressing. If this fairly limited experiment succeeds, it will be followed by other changes to make the House more effective in dealing with the nation's business.

SPRING COMPLAINT

Winter ruts and Spring pot holes.

The pothole problem is a temporary one, of course, but it is the grand finale to a torture test you have been giving your car over Winter's ice and ruts. The aftermath can include cut tires and damage to springs, shocks, wheel bearings, tie-rod ends and the whole exhaust system.

The best remedy for pot-holes is to cut your speed so you miss as many as possible. But even though you miss 'em all, you can be sure that the rough roads of Winter have set you up for some major bills in the future, unless you take preventiv action now.

Failure to correct misalignment can result in rapid and excessive wear to your front tires. We will be glad to check your alignment along with a general examination of your muffler, tail pipe, brakes, etc. Tightening body rattles in a few crucial spots is also a good idea. Winter is tough on shock absorbers and in any once-over they should receive special attention.

Like good doctors, our mechanics have no desire to operate unless absolutely necessary. If there is nothing wrong, they'll tell you.

NOTICE TO PROPERTY OWNERS Destroy Weeds

Notice is hereby given to all persons in possession of land, in accordance with the Weed Control Act 1960, Section 3, 13 and 19 — That unless noxious weeds growing on their lands, within the

Municipality of Nassagaweya

are destroyed by date of June 15, 1964 and throughout the season, the municipality may enter upon said lands and have the weeds destroyed, charging the costs against the land in taxes, as set out in the Act.

The co-operation of all citizens is earnestly solicited.

V. E. McARTHUR,
Weed Inspector,
County of Halton.
