

"Ex" Hobby Show

Interests All - Eight to 80

This year, the C.N.E. presents the biggest Hobby Show ever held in Canada.

More than 100 clubs have enlisted some 5,000 craftsmen and collectors to demonstrate and give information. The exhibits take up the entire north wall of the General Exhibits building, an area of 12,000 square feet.

A large section of the Hobby Show is devoted to the model field - interesting to every boy from eight to 80. The model railroad layout is operating continuously from 9:30 a.m. to 10:30 p.m. Model car, or slot car racing, is being demonstrated on an 18 by 46 foot track by the Ontario section of the Canadian Model Car Racing Association. Members of the Balsa Beavers Flying Club are on hand to display and build various types of planes.

Demonstrations
Outstanding Canadian craftsmen from the Leathercraft, Metalcraft and Spinners' and Weavers' Guild are demonstrating the various techniques used to produce the finished products.

The Lithuanian Federation members are carving religious statues and shrines, painting and displaying valuable objects of amber inlay. Women in native costume from the Japanese Cultural Centre are demonstrating the art of flower arranging, while young Japanese boys are doing three dimensional paper modelling.

For those interested in photography, there is a salon showing the finest prints collected from 13 camera clubs in the Metro Toronto area. The six Toronto stamp clubs and the 40 Ontario coin clubs are showing rare collections.

Toy Soldiers
The British Model Soldiers Society is on hand with an outstanding collection of toy soldiers and are painting them authentically to portray every period

of world history. The Rock clubs are explaining about prospecting and fashioning the stones in jewellery, and of special interest to women are the petit point and rug hooking demonstrations.

Another section of the Hobby Show is devoted to marquetry—the ancient art of wood inlay. The Canadian Pigeon Fanciers' Association is showing and talking about the various breeds of birds and are hoping to interest many teen-agers in this hobby.

Hobby Show visitors can send messages of importance to relatives and friends in Canada, eight other countries on this side of the Atlantic, and to members of the armed forces anywhere in the world. Communications are being handled by Metro Toronto's six ham radio clubs with the help of Oshawa and Hamilton groups.

Kites Flying
Rafters of the General Exhibits building are decorated with kites of all sizes from the Kite Club and Ken Lewis, top Canadian authority, is making kites and explaining flying techniques. A collection of antique clocks is also featured.

The Second Mile Clubs and the Women's Shelter Workshop have various activities from quilting to painting to artificial flower making.

Scores of articles are being turned out on the potter's wheel in the evenings and sculpture is being done in the afternoons.

Outdoor Types
For people of all ages who are happy to have the outdoors as their hobby, there is the booth manned by the Ontario Federation of Field Naturalists.

The Ontario Department of Agriculture is demonstrating and exhibiting hobbies and home-crafts which the home economics service of its extension branches teaches throughout rural Ontario.

HARLEY...to HALTON

By DR. HARRY HARLEY, M.P.

Since our last column, all the items prior to the flag have been cleared. The flag debate has begun and as expected, the Conservative Opposition spent the first day of the renewed debate talking unopposed by any other speakers.

One of their main arguments appears to be that this is not an important issue. If this is so (and I do not accept their viewpoint), then why do they want to debate it continually? As far as taking up the item of Parliament, we are using up our recess time to stay here and decide the flag issue.

White Paper Tabled
The White Paper on the Canada Pension Plan has been tabled in the House of Commons and I would like to outline it in my column as there have been a great many enquiries into the details and consequences of the Plan.

It will provide social insurance to people in retirement, to widows, orphans and the disabled. The benefits have to be portable for people who change jobs and homes. Private pension plans may continue to provide benefits over these Canada Pension Plan minimum levels.

Features of Plan
(1) An earnings-related pension available between ages 65 and 70 years on retirement, or at age 70 years, whether retired or not.

(2) The existing flat rate Old Age Security Pension will also be available from 65 to 70; if taken before 70 years it will be reduced appropriately.

A lump sum benefit will be paid when a contributor or pensioner dies, amounting to six times the monthly retirement pension.

Rate of Contributions
Contributions are to begin in January, 1966. The pension will

gradually build up and reach its full maturity in 10 years. The contributions will cover the cost of benefits and administration of the plan.

The rate of contribution will be 1.8 per cent of income up to an income ceiling of \$5,000 per year for an employee and the employer will pay a similar amount. A self-employed person will pay the full 3.6 per cent. Pensions are to be 25 per cent of what a man has been earning. Pensions being paid will be increased periodically if the level of prices rises.

There has been a great deal of anxiety regarding pension plans at present in existence. I would like to, therefore, comment on the Canada Pension Plan and its relationship with private plans.

May Modify Private Plans
Those responsible for each private pension plan will be free to decide how they wish to modify their own plan. In plans where contributions are high, they may decide not to increase their contributions, but to reduce the private plan contribution rate accordingly. They may decide to augment their present plan with the Canada Pension Plan.

The Canada Pension Plan will NOT take over reserves already built up by private plans, or remove any rights or benefits already acquired. The integration of private plans with the Canada Pension Plan will not be compulsory.

In countries where a public pension plan has been in effect, it has not been a deterrent to the growth of private plans. An analysis of the financial effects of the pension plan has been concluded that such effects will not be large. This is supported by the experience of other countries.

Dr. Harley Reports to Halton On 26th Parliament's Progress

In a letter to his constituents this week, Halton M.P. Dr. Harry Harley reviews progress that the 26th Parliament has made since beginning its second session.

He first calls for a "streamlining" of Parliamentary procedure to alleviate a slow-down in passage of legislation. Dr. Harley also points out that:

• In education, measures have been taken to encourage students to remain at school and complete their education. Monthly \$10 youth allowances for these students 16 to 18 years, and a student loan act enabling secondary students to borrow up to \$1,000 for five years interest-free until six months after graduation, are also helping students remain in school.

Plan Approved
• All provinces have approved the Canadian Pension Plan in principle and more progress on the Plan is expected in the near future.

• National Housing Act has been amended to provide for urban renewals measures. Farm Credit and Export Credit acts have been given more funds so that the farmer can get better loans and credits for expanding his business.

Troops in Cyprus
• The Government has sent Canadian troops under the U.N. flag to guarantee peace on Cyprus, and has approved of a single Chief of Staff of the three armed services as a step towards integration of the three branches.

• The Columbian River Treaty has been passed, and a 12-mile fishing zone has been approved to protect Canadian fishermen.

Halton residents can contact their M.P. by writing to him at the House of Commons, Ottawa, or calling his home at Oakville V15-1990 on weekdays and leaving the message. The M.P. is home most weekends.
