

BAD LUCK HAS PLAGUED the owners of this four-seater plane, that was forced to land in a field on the Henry Arnold farm near Milton two weeks ago today. Field Aviation of Malton, owners, decided to tow the plane to a flat field and take off before worse weather set in. However a windstorm knocked the craft about, seriously damaging the wings, and the scheduled take-off was cancelled. Now they've decided to take the plane apart, piece by piece, and haul it away on a trailer. The \$15,000 plane had just been completely reconditioned before the fateful flight January 6 when engine trouble developed and forced pilot Doug Madden to bring it down in the plowed field.
