CLUB EXECUTIVE MEMBERS Ken Jones, Ray Short and Vern Wilson are avid shooters. The three men are shown here as they inspect a target.

Just about every finance manager in Canada will give you credit for buying this car.

They're experts when it comes to economy.

They know, when it comes time for you to make your last payment, chances are your VW will still be looking as nice as the day you bought it.

In 1953, we sold 960 Volkswagens.

And at last count, a few months ago, we found 855 were still on the road.

That's why, when you want to buy a VW, you'll find it's not very difficult to get backing from one of the finance companies that stand behind us. Or any bank, finance company or credit union you choose.

And because a Volkswagen sells for about \$1,000.00 less than the average spent on a new car in Canada, the payments you make are likely to be smaller. Or fewer.

Does a VW demand a big down payment? Not very. In many cases, your trade will do the trick.

And we're taking all kinds of trades. Big cars. Small cars.

Old cars. Late model cars. Compacts. But the really nice thing about buying a Volkswagen is that it's priced low enough so you can pay it all

in one lump sum. Or we can come to terms.
