OLD FASHIONED DAYS ARE HERE AGAIN in Milton, and these young girls are attired in the kind of clothing grandma wore as they join in the town-wide celebration. Old Fashioned Days program this year includes a swimming pool aquatic night (last night), a costume and talent contest tonight, a hardball-softball game Thursday night, a Friday afternoon regatta incorporating both a pioneer village and an Indian village at the pool, a

Friday night Recreation Committee parade followed by an Indian "raid", a Saturday night free dance at Milton Plaza, and two free band concerts Thursday evening and Saturday afternoon. The girls above include Cathy Breen, Jo-Anne Hadley, Nancy Bickers, Lynn Coulson, Sharon Taft, Susan and Brenda Little, and all the Pierces — Emily, Cindy, Eva and Jean.

AN INTERESTING DISPLAY of Indian crafts is decorating the window of Halton and Peel Trust and Savings Office on Main St. this week. It's the private collection of office manager Lorne Skuce. Three girls who dropped in off the street to admire the display were Mary Keane, Fae McKay and Marilyn Martin.

NURSES MEET HERE

Collective bargaining, nurses-relationship to management and non-management will be topics of discussion when the Halton Chapter of the Registered Nurses' Association of Ontario holds its next general meeting in Milton. Nurses from all the county hospitals are expected to attend the meeting at the Halton Centennial Manor on Monday, September 13, at 8 p.m.

A Disgrace

Dr. A. L. Moseley of Harvard Medical School headed up intensive research, over five years, into fatal highway collisions. His report contains some astonishing findings, and bitter conclusions. Here is an extract quoted by the Ontario Safety League: "The investigation of traffic death cases carried out by pub-

lic agencies is a national disgrace. Indeed, the resistance to a scientific scrutiny of the problem is astonishing. If you are shot with a gun and found dead, it is a matter of the utmost urgency that no stone be left unturned to see that the matter of the death be factually determined. If you are killed while driving your car, the death is automatically accidental and if there is any investigation, it

is concerned only with the immediate circumstances, primarily as it affects the license, registration and rules of the road. In short, society places a very high value on you if you are murdered and a very low value if your death is by driving."

Here's an easy payment plan for Christmas shopping — 100 per cent down, and nothing else to pay.
