stuff" in front of the grandstand.

The Authority learned a year ago that the national park would donate animals from its herd of 17,000 buffalo, if anyone promised to transport and care for them. The Authority's original request for five was turned down when disease struck the herd and 300 buffalo died.

Elk Island National Park, Alber- rector of the department in Otta, are to be corralled in a val- tawa, notified the Authority the ley beside Rattlesnake Point Park request had been granted as the west of Milton, in a unique pro- outbreak of disease has been ter-

The area chosen for a bison corrall is in an Authority-owned valley just west of the Nassagaweya Canyon Lookout at Rattlesnake Point Park, between the park and Walker's Line. Field Officer Dave Murray said the land could be easily fenced and there were plenty of rolling hills and lots of running water on the property, so he felt it would be However H.R.C.A. members an ideal area for the bison. ## Gord Collinson Heads Milton's Parks Board

Gordon Collinson was named chairman of Milton's first Parks Board when the group met for the first time on Wednesday evening of last week.

Councillor G. Addison welcomed members Dick Clement, G. Collinson, C. Fay and J. Dills, expressing regret that E. B. Clements and R. F. McCuaig had been unable to be present.

Councillor Addison and Councillor Fay reviewed their hopes for the Board and the development of an adequate parks system. They urged the business-like approach to the conduct of the meetings by use of the written motions, and gave members copies of the town by-law establishing the group and the sections of the Parks Act that apply to the Board operation.

## **Full Time Director**

Councillor Addison expressed a hope that there might eventually be a full time director of recreation and parks that would coordinate the work of both groups.

Members noted present park locations in the town, agreeing that several of the eight were low land or creek beds. Municipal representatives emphasized the need for an all-round parks program involving not all baseball and not all flowers, but some of

The clerk-manager was to be asked to detail the specific parcels of land that would be the responsibility of the Parks Board.

In routine discussions it was agreed the position of chairman should be generally a one year term; meetings should be held the second Thursday of each month at 7.30 p.m.; an advertisement should be placed for a secretary-treasurer with the chairman, Dick Clement and G. Addison as a committee to interview ap-

plicants. An inspection of present park sites was arranged for later this (Continued on Page Three)

COSTUMES OF A BY-GONE ERA and modern musical talent came to the fore Wednesday evening of last week when the Recreation Committee offered prizes for the best old fashioned costumes and talent at a program at the Town Hall. Above on the left are the individual winners in the costume contest, Mrs. Dorothy Willson of Brampton and Miss Debbie DeVarennes of Milton. On the right are the family costume winners, Mrs. Don Herman and her children Michele and Brian. In the centre are some of the entertainers who participated in the talent section. From left to right are Beverly Waters who danced, second prize winner Mary Anderson who played classical piano solos, third prize winners Judy and Janet Ferrier who sang accompanied by themselves on guitars, Margo Clarkson who sang and danced, and accordionist Dean Scovell. A crowd of over 300 sat in on the entertaining evening and close to 75 of them were in old fashioned costumes.
