Display Programs

The program for the 17th anniversary was displayed and all agreed The Moffat Municipal Printing made a real nice job of them.

Mrs. Ed Dredge was in charge of the program and her topic was higher cost of the Cheaper price. The High Cost was paid by our Lord and Saviour Jesus Christ and many of us serve the Lord with the cheaper price as we like to choose our lives on our own terms.

The Ladies' Aid met the same day but there was not much business to do. Mrs. Nash of Stoney Creek has accepted the invita-

There were 14 members and two visitors present.

By Arn Coulson

September is the month when a lot of fishermen put away their gear for another year, but we think this is a mistake. There are still lots of fish around and this is one of the best times to catch the really big ones. The water skiers and speed boats have all left the lakes and ponds and most anglers can have their favorite fishing holes all to themselves.

Also, the fish come out of the deep holes as the water gets cooler and they try to get closer to shore for food. One doesn't have to travel far for good fishing during September and October. Lake Nipissing still produces wonderful pickerel, pike and musky, and the Kawartha and Rideau Lake systems still have plenty of fish.

Congratulations to Len Naylor of Milton for his seven and one-half pound brown trout which he caught not too far from home. Gordon Lee of the Halton Sportsmen's Association landed a beautiful 33 inch, 13 pound pickerel. Tim Coulson of Lowville caught a large bass while fishing in the Kawartha Lakes on his holidays. Norm Coulter of Milton, along with a few cronies, reported a fine fishing trip over the Civic Holiday weekend with at least one trophy size pike over 36 inches long. Arn Coulson caught a 27 1/2 inch pickerel which weighed in at 7 1/2 pounds.

Roy and Jack Coulter of Lowville, who have acquired a cottage on Hollow Lake at Dorset, reports good lake trout fishing. This lake has been producing very good fishing for the last few years.

The September meeting of the Halton Sportsmen's Association was held Thursday, September 2, in the club rooms. A good turnout proves the popularity of the club. Election night was held and there were quite a few changes in the executive. The new president is popular Jim Mountain, while Paul Coulson is vice-president, John Readhead is secretary, Ron Marshall is treasurer, Dan Kidd is gun director, Ken Lewis is fishing director, Arn Coulson is in charge of public relations, Ira Murphy is chairman of the building committee, Maurice Coulson heads the entertainment committee, and Bruce Coulson is in charge of fund raising.

Just a word here about the new president for the year 1965-66. Jim lives in Milton with his wife Hilda and son Kim. He is a partner in the trucking firm of Mountain Milk Transport. Jim is an ex-fireman of many years, retiring last year from the force for health reasons. But we all know that when the fire call comes and the truck leaves town, Jim would love to be on it.

He loves to hunt and fish and has been moose and deer hunting for many years. He is one of the old-timers of the club . . . by this, we mean one of the first members. So good luck in your new post as "boss man" of the club.

The rabbit season in Halton County this year is from October 20 to February 28. The bag limit on cottontail rabbits is six per day.

Water pollution is still one of the major problems, not only in Canada but in the United States
