

## Fashion Show of Millinery For Summary Day at Manor

Last November, leaders from several communities in Halton county attended the Senior Training School "Hats for You". This two day course was conducted by Mrs. Mildred Mulligan, millinery specialist with the home economics branch of the Ontario Department of Agriculture.

Following this session, the local leaders taught courses in their own communities. This Wednesday, January 12, a Summary Day is being held so that everyone can see what has been accomplished in the millinery fields across the county. Everyone is invited to attend this program which commences at 1.30 p.m. in Halton Centennial Manor.

**Fashion Parade**  
Some of the highlights of the program will be a fashion parade by Campbellville, Dublin, Mountain Union and Scotch Block groups and exhibits featuring a hat salon by Hornby and Nelson groups, a shoppe window by

Lincolne and Ashgroves groups and a millinery workshop by the Norval group. The feature of the afternoon will be The Magic Hat Box presented by Mrs. Mulligan. Tea will be served at the conclusion of the program.

**Achievement Day**  
Also this week, on Saturday, January 15, an Achievement Day is being held for the 4-H Homemaking Club members who have completed their fall project "Working with Wool". During the morning, the girls will answer a quiz and take part in a judging program. In the afternoon, each club will present an exhibit or a skit or demonstration. There will also be a fashion parade in which each girl will model the skirt she has made in this unit.

The Achievement Day is being held in St. Paul's United Church, Milton, and all parents and friends are invited to attend the afternoon program.

**MILTON DISTRICT HOSPITAL** Women's Auxiliary recently donated a \$250 "hydrocollator" to the physiotherapy department of the hospital, and physiotherapist Mrs. M. Hunt, administrator Dalton McQuaig and W.A. president Mrs. J. Conway are shown here with the machine. It heats sand-filled "hot-packs" up to over 140 degrees, and these are used to loosen up muscle spasms and whiplash injuries. Mrs. Hunt reports the hydrocollator has been used quite frequently since its arrival and has been filling a special need among patients and outpatients.

A dainty lunch was served by the hostess and committee.
