"1966 Ford quieter than my Jaguar? Not jolly likely!" said Rob Walker

British auto sportsman R. R. C. Walker (above) has had a life-long devotion to fine machinery. Obviously he knows something about cars ... but one thing he didn't know was how remarkably quiet the 1966 Ford is.

... then he drove the Ford.

Ford's Quiet Man, who recently demonstrated the extraordinary quality of the 1966 Ford to owners of some of the world's most expensive luxury cars, here discusses the '66 Ford LTD with Rob Walker at his family's estate in Wiltshire, England.

Compare your car with the quiet of Ford's solidly built body. Take a "Quiet Test" today.

British sportsman Rob Walker was skeptical about comparing the quiet of the '66 Ford with his hand-finished Jaguar Mark 10. But then he drove both cars, and said, "This really is astonishing ... I believe this Ford of yours really is

quieter. Astonishing!" Compare your car with the '66 Ford and you'll understand his astonishment. Ford's quiet ride is a direct result of more built-in quality—a strong, solid body that gives you quietness that compares with the world's most expensive automobiles.

This quiet quality means more value for you because today's Fords are built for years of dependable operation, years of owner satisfaction.

And with it all, of course, come Ford's wonderful new ideas for your comfort and convenience. Stereo Tape players. Silent-Flo ventilation. A "Magic Doorgate" on wagons that swings out like a door, and down like a tailgate. And a host of other features offered first by Ford. Visit your Ford Dealer for a quiet revelation of the solid quality you get in a Ford.
