

Mrs. Ellen Fairclough Discusses Investments for University Women

Mrs. Ellen Fairclough addressed the University Women's Club last Thursday on the subject "Investments". Comfort and security are the aims of most investors, but present comfort should not be sacrificed entirely while striving for future security, she pointed out.

Mrs. Fairclough was speaking to the club in her role of char-

tered accountant, and investments counsellor. She is now Secretary of the Hamilton Trust and Savings Corporation, and was in a public accounting practice from 1935 until entering the Government of Canada. She was elected to the House of Commons May 15, 1950, and defeated in the General Election April 8, 1963. Among her cabinet posts were Secretary of

State, Minister of Citizenship and Immigration, and Postmaster General. As Minister of Citizenship and Immigration, Mrs. Fairclough was in charge of Indian affairs, and grew to respect the Canadian Indians very highly. They, in turn, expressed their high regard for her when the Cayuga Tribe named her "Princess Bright Flower", and the Blackfoot Tribe elected her "Chief Eagle Woman". Mrs. Fairclough was deeply touched by this honor. In addition to her very busy roles in business and politics, Mrs. Fairclough has served on the executive of many voluntary organizations, including the I.O.D.E. and the Canadian Council of Christians and Jews.

When planning for his future security, a person should analyze his present status, try to estimate his future earnings, and decide how much money will be needed in the retirement years. This is hard to do because of the constant changes in economy, she said.

The average individual must save before he can have money to invest for the future. Life insurance for the protection of the family should be the first step. Another type of investment is the Retirement Savings Plan, offered by most trust companies, in which an investor can buy an annuity for his future years. Such plans can be varied to suit the needs of the individual.

Most investors want some common stocks since their value is likely to grow and hence to help overcome inflationary trends. Mrs. Fairclough suggested that the investor should choose such equities himself after an objective analysis of the company, its management, past earnings, and future prospects.

The wise investor will ignore "tips" from his friends when it comes to stock market. Many investors choose to include some bonds and preferred stocks in their portfolio because of their high yield. Investment counsellors must consider the age and individual requirements of each investor before giving advice.

The meeting was held at the home of Mrs. P. Allmen. Visitors from the Oakville University Women's Club were welcomed by the president Mrs. H. Powys.

High School Highlights

by CAM ALLEN

The final games of the basketball season are over and the Junior boys had a record of three wins to their credit. On Wednesday of last week they defeated the GCVI boys from Guelph by the score of 51-48. Again Pat Redgrave led the Milton netmen with 25 points.

The Junior girls also won, by a score of 32-16.

Nora Hearn collected most of the points for the Junior girls.

Host St. Jeromes

On Friday the boys hosted the Giants from St. Jeromes. The

Junior boys lost a squeaker by the score of 60-52. Pat Redgrave again led the boys with 23 points. John Hansen found the basketball net for 12 points, Yoris Faggion hit for 12 points. In the Senior game Mr. Allmen's squad cut 35 points off the last score as they held the St. Jeromes Seniors to 78 points. Our own boys collected 32 from Gord Hadley with 9 and Larry Mills also hit for 9. Other points came from Brian Stover with four, Gary Andress with four and Dave Hunter struck for two.

Curlers Go to Georgetown

The Milton Curlers from the High School travelled to Georgetown on Friday to meet the Georgetown school in an exhibition match.

On the activities front, the idea of starting five minutes early was scrapped because of the overload of late students. The School Newspaper TEMPO will be out

this week with a Valentines Day theme on a different front.

The Record Dance Committee has announced a dance for this coming Friday night (Feb. 11).

It is expected this will be the Sadie Hawkins dance, so all you boys had better watch out, that background admirer might come up with the big question. The Radicals in their big move, recently turned for twirp days, which plugs the common etiquette rules around the other way and adds some fun to lead up to the dance.

Praise Fire Brigade For Contest Victory

Milton Area Fire Department's fire prevention efforts have again claimed honors for the brigade in a contest sponsored by the National Fire Protection Association.

Milton Council was advised on Monday the brigade under Chief A. E. Clement gained an Honorable Mention for Ontario for municipalities with a population of 5,000 to 9,999. The letter noted "With 301 entries submitted this year, and the quality shown by these, the standing of Milton Area is deserving of the high praise".

Councillors added their praise to the chief and brigade for their efforts. Councillor C. Johnson noted the area had a good brigade because area municipalities "have seen fit to co-operate". He was referring to the operation of the brigade on an area basis rather than a single municipality basis.

Begin School Talks

N.E.S. Finds 5,010 Jobs in 1965

During December the Oakville Office of the National Employment Service placed in employment 463 persons. Of these, approximately 160 were at the Post Office.

Over the past year a total of 5,010 men and women found jobs through N.E.S. This figure represents a 3 per cent increase when compared to 1964, the previous peak placement year.

There is still an urgent need for the following workers: welders, I.B.M. operators, young men with grade 13 for clerical work as trainees, daily domestic help and bookkeeping operators with typing ability.

A series of talks on job requirements and N.E.S. facilities is planned for Milton High School. The Special Services officers of the N.E.S., in co-operation with the Guidance Staff of the school, will be speaking to all anticipated 1966 graduates.

On Friday, January 14, the Ford Motor Company of Canada Limited again started a program of interviews prior to hiring approximately 500 men. All applicants interested in applying should report to the National Employment Office at 130 George Street.

—Champion classifieds bring speedy results. They're inexpensive too.

—Items are welcomed for The Champion's social and personal news column. There's no charge for these items.

EXERCISE DAILY

Daily exercise is beneficial and it should be done regularly and consciously. To get the maximum good, exercises should be chosen for their suitability to age, weight and physical condition. The family doctor should be consulted on the matter.

Deadline Quickly Approaches For Purchasing Licence Plates

With just over two weeks remaining before 1965 car licence plates become invalid, only 1,178 of a probable 5,000 sets of plates have been purchased from the Milton office of the Ontario Department of Transport.

Peter Blinco clerk at the Milton office reports "we're going to have another rush again this year." Deadline for purchasing plates is February 28. He also noted the same deadline exists for purchasing plates for station wagons. So far only 95 sets of plates have been purchased but it is expected the total will reach 450 before the deadline.

The Milton office — located in Clements Wallpaper and Paint Store on Main St., is open on Monday, Tuesday, Wednesday, Thursday and Friday from 9 a.m. until 4:30 p.m. and on Saturday office hours are from 9 a.m. to 1 p.m.

Truck licences for the full year will go on sale on March 1 and the deadline for purchasing them is the last day of March. Quarterly plates for trucks will go on sale on March 25.

Due to renovations at the town hall, drivers' tests will be conducted from the Old Court House Building on Brown St. for the next few months, Mr. Blinco said.

Care for Crippled Children Aim of Society Says Speaker

"Our objective is to find and insure care of every crippled child in the district" Mrs. Vera Young, District Nurse of the Society for Crippled Children, told Milton Rotarians last week.

The Rotary Club sponsors the annual Easter Seal campaign on behalf of the Ontario Society for Crippled Children.

Mrs. Young emphasized that reference to needy children does not always refer to financial need. "There can be no standard or rigid form of means testing. Every case must be judged on its own."

In Ontario there are 30 district nurses working from 16 offices. All are registered nurses with additional training, who are involved in helping children and parents in planning routines within the capacities of the child.

Approximately 300 children are assisted by the Society in Halton Mrs. Young told the Rotarians in a question period following her address.

More Garages

A revision of the town's garage by-law passed in 1947 and limiting the number of garages and service stations to 10 is expected to raise the permitted number to 16.

Milton Council Monday received the proposal from the solicitor D. A. McConachie, who also suggested the subject of garage locations should be considered by the Planning Board during their current review of the zoning by-law.

University Women's Groups Are Active

One of the important features of any University Women's Club is its interest groups. Since its inception the local club in Milton has been engaged in the Status of Women, Education, Art, Great Books, Current Events, Book Exchange and Investments. Each year, depending on the inclination of the members, several of these groups function. At present there are three.

The Book Exchange which does not require extra meetings is simply as the title suggests, an exchange of worthwhile books at the monthly meetings of the club.

Special Speakers

The Investment group is new this season and has proved to be stimulating. The members are most grateful to F. H. Hadley, L. E. Andrews, L. L. Skuce and O. K. VanSickle. Each of these speakers has attended a meeting and shared his knowledge and experience of Canada's finance and economy.

The hardy perennial of these groups is the Current Events. It has been active each year. At the last meeting at Mrs. P. Masson's home in Acton, the members collected and discussed information about Rhodesia. On February 9, the group will meet at Mrs. R. F. Argall's. Each person will give a brief account of some assigned aspect of the present situation in India, with special reference to Mrs. Indira Gandhi.

Personals

Mr. and Mrs. Don Heslop visited with their parents, Mr. and Mrs. Cliff Houston of Milton and Dr. and Mrs. G. Heslop of Palermo, during the weekend.

Mrs. Beatrice Fletcher of Nassagaweya Township school area board and Mrs. C. A. Grant of the Esqueping school board attended the Ontario School Business Officials conference in Niagara Falls, Sunday to Wednesday of this week.

Mr. and Mrs. E. David Thompson of Maplewood Crescent, Milton, entertained Mr. and Mrs. G. Fairclough and Mr. and Mrs. John Ostler, at dinner at their home on February 3. That evening Mrs. Fairclough was guest speaker at a meeting of the Milton and District University Women's Club.

Keith Houston, Main St., left on the weekend to take a four month training course with Air Canada in Montreal.

—The groundhog had his choice last week. It was sunny part of the day and cloudy part of the day last Wednesday.
