Think you can talk her into it?

Yes. If she's a little self-reliant. And likes to get around and go places by herself.

Yes. If she's still a bit dependent. And relies on you for advice about mechanical things like cars.

Yes. If she's got lots of zest and energy. And doesn't mind shifting four fully-synchronized gears. Instead of just steering around town.

Yes. If she's a little bit lazy. And doesn't like pushing her way out of snowbanks in the winter.

Yes. If she's thrifty with pennies. And likes to save you money on little things like gas. And oil. And anti-freeze.

And tires. And maintenance.

Yes. If she likes to be extravagant. And spend the money she saves on brocade wallpaper for the bathroom.

Yes. If she's flexible in her thoughts. And will let you lay out \$800 or \$900 on a used Volkswagen when she'd already had thoughts about a Hammond organ.

Yes. If she's strong willed. And insists you get the most for your money in a small car.

When you get down to it, it's really a matter of your wife talking you into it.

\$125 theft

Smash window, grab camera

An early Sunday morning smash-and-grab attempt on Harris Stationery netted the thieves a movie camera and tripod valued at \$125. The camera as-

sembly was on display in the front window and was removed through a massive hole caused by a five pound rock.

It is believed the rock crashed through the seven-foot square window, struck a cash register in two places and went on to loosen a stock cupboard door, strewn glass half the length of the store.

Constable K. Robertson of the Milton Police discovered the incident at 6:00 a.m., and it is thought the crime was committed between four and six o'clock.
