

THE NEWLY-INSTALLED SPILLWAY at the town's mill pond centennial project was in use for the first time last week, following a heavy Sunday night rain which combined with melting snow to dump about a foot of water in the dried pond. Town workmen drained out the water through the new spillway adjacent to Mill St., and here it cascades down the sloping spillway into the Sixteen Mile Creek. (Staff Photo)

Hay bale off truck dents car for \$150

How heavy is a bale of hay? Plenty heavy, if it's falling off a passing truck and landing on the front of your car, it seems. A car driven by Douglas Ray Aselton of 76 Anne Blvd. Milton, was damaged to the tune of \$150 Friday when it happened to him.
Police report Mr. Aselton was driving along the Base Line near the Fourth Line, Esquesing, when a bale of hay fell from a Georgetown man's truck and hit the front of his car. The truck driver has been charged for failing to secure his load.
