

McMASTER GRAD
Bernice Moore, daughter of Mr. and Mrs. John Moore of Moffat graduated from McMaster University with a Bachelor of Science in mathematics. Bernice is a graduate of Milton High School and will teach at G. Williams Secondary School in Aurora this September.

Parked cars often hazard

Milton Police Chief Address reported the Milton force is concerned over the number of cars parked on the travelled portion of the town's back streets.

Children have a tendency to dart from between the cars, and a serious accident could result. Traffic is also obstructed and numerous complaints have been received by the police office.

"In the interests of safety, we would ask the citizens of Milton to co-operate with the local police in an attempt to solve this problem so that it will not be necessary to issue parking tickets to the offenders," Chief Address stated.

Dr. T. Wilson new principal Erindale school

John Tuzo Wilson, professor of geophysics at the University of Toronto since 1946, director of the Institute of Earth Sciences at U of T for the past seven years, and an internationally known authority in his field, has been appointed Principal of Erindale College.

Dr. Claude Bissell, President of the University of Toronto, in announcing the appointment, said that Dr. Wilson would succeed Dr. D. Carlton Williams, who recently resigned the principalship to become President and Vice-Chancellor of the University of Western Ontario at London. Dr. Wilson's appointment takes effect on July 1.

Born in Ottawa in 1908, John Tuzo Wilson earned his B.A. in physics and geology at the University of Toronto, studied geophysics at Cambridge University, England, where he gained the degrees of M.A. and Sc.D., and gained his degree of Doctor of Philosophy in geology at Princeton. He has honorary degrees from Carleton University, Ottawa, and Western Ontario.

During World War II, Dr. Wilson served with the Canadian Army, rising in rank from second lieutenant to colonel.

Dr. Wilson has a special interest in the Arctic and in Antarctica as well. In his final year in the army, he planned and directed Exercise Muskox, a test of troops, training methods and equipment under barren Arctic conditions.

During the International Geophysical Year, 1957-58, Dr. Wilson, as president of the International Union of Geodesy and Geophysics, travelled at least 100,000 miles; visited Europe three times; crossed the length and breadth of South America and passed over both the North and South Poles. His travels during his career have totalled well over half a million miles, have included five trips around the world, visits to more than 100 countries and to more than 100 universities on six continents.

His chief research interests are in the physics of the earth and inter-continental comparisons of geology including the problems of continental drift. This is the theory that the earth is slightly plastic with the continents slowly drifting over its surface, fracturing and reuniting and perhaps growing in the process. Dr. Wilson has been a member of both the National Research Council and the Defence Research Board, and vice-chairman of the advisory committee on science and medicine for Expo 67. He is the author of three books and well over 100 scientific papers. For recreation, he likes to walk, collect Arctic Canadiana and sail his Chinese junk on the Great Lakes.

LOBLAWS Finest Meat

Double Your Money Back! Guaranteed! If not completely satisfied with ANY fresh meat you buy from LOBLAWS

- SPECIAL! MEATY PORK SIDE SPARE RIBS** LB. **65¢**
- SPECIAL! SHOPSYS ALL BEEF FRANKFURTERS** 1 LB. VAC PAC PKG. **55¢**
