

July 8 to 14

# Variety of fun events in Conservation Week

July 8 to July 14 has been designated as Conservation Week in Halton. Over 30 community service groups are co-operating with The Halton Region Conservation Authority in organizing a gala week of activities.

The brainwave of Rud Whiting, Oakville representative to the Authority, Conservation Week has been enthusiastically supported by all those approached.

Planned to stimulate public awareness and support of conservation goals in Halton, and to involve the public in dreams for the future, Conservation Week will appeal to all ages.

The following programs have been scheduled:

**MONDAY JULY 8**  
Official Opening of Mountsberg Conservation Area;  
Mountsberg Wildlife Preserve, containing the 500-acre reservoir created by the Mountsberg Dam Project, is the Authority's most original wildlife conservation project. A home for 20 varieties of wildfowl, foxes, deer, and other animals; the farm is also experimenting with the winter feeding of wildfowl.

J. C. Thatcher, Deputy Minister of Energy and Resources Management will speak to representatives of all government levels, local landowners, conservationists, and press at the 2 p.m. opening. Pheasants shall be released and fish stocked at Mountsberg Reservoir as the tour of the 1,200-acre area follows. A reception shall be held at Mountsberg Game Farm at 4 p.m. and the public is welcome at the opening.

**THURSDAY, JULY 11**  
Project Preservation  
Over 600 children will take part in Project Preservation, planning, directing and carrying out their own small conservation projects. Children from the Oakville, Burlington, Milton Recreation Playgrounds; YMCA, Humane Society and Scouting groups will learn through practical experience and involvement the value of conservation.

Most of these junior conservationists will clear shore lines, construct stream fish weirs, line stream banks etc. in their own local area. Ninety will release pheasants, stock fish and band ducks at Mountsberg Wildlife Preserve, combining this contribution with a picnic day and a visit to meet "Bashful Bobby the Buffalo Bull" at Rattlesnake Point Conservation Area.

The Halton Region Conservation Authority will present individual participation parchments to the youngsters. A grand award will be given to the group contributing the most original project.

Any interested groups should contact the Authority immediately.

**FRIDAY, JULY 12**  
Adventure Day at Kelso Dam Conservation Area;  
Adventure Day will combine the excitement of an outdoor picnic day with valuable lessons on how to be at home in the wilderness. Children from Oakville, Burlington and Milton recreation programs will receive instruction in Orienteering, tour the escarpment and the Halton County Museum.

The Ontario Orienteering Association and Professor Alex Peepre of the Department of Physical Education, University of Guelph, will instruct over 200 boys and girls in Orienteering -- the art of wilderness familiarity with map and com-

pass. Kelso Pool staff has organized a swim competition in the afternoon. Each group will enter a 12-member team, rooting on their team to try for the grand award.

Adventure Day will emphasize the close relationship between sport, recreation and conservation to some of the future citizens of Halton.

**SATURDAY JULY 13**  
Sportsman Day at Rattlesnake Point and Kelso Dam

Professor Alex Peepre of the Department of Physical Education, University of Guelph, and the Ontario Orienteering Association will instruct 60 people in "finding your way in the wilderness." Starting at 10 a.m., participants will learn the use of a directional compass, and participate in the popular and easy hiking sport of Orienteering.

The Bruce Trail Association's hiking enthusiasts will lead families on nature hikes throughout the morning from Rattlesnake. At 1 p.m. the afternoon will start with a bang as the Halton Sportsmen's Club Conservation Week Invitational Trap Shoot begins. Open to all members of Halton trap clubs, eight man teams will compete in a 25 clay bird contest for the trophy. Future plans for Conservation Week include this event as an annual and larger contest.

At Kelso Dam Conservation Area:  
Shifting into high gear, Sportsman Day will continue at Kelso Dam Conservation Area. Gun safety demonstrations and fly-casting instruction will be available.

The Oakville Humane Society "Water-Bug Dog Races" will start at 1:30 at Kelso Beach. Any youngster with a water-happy mutt is invited to enter right away by calling the Authority at 878-6891. There will be two races: Big Bug Water Races: dogs over 40 lbs., and Baby Bug Races: pooches under 40 lbs. Dogs will be released by handler, and his master will row beside him as he paddles through the course. Prizes donated by The

Humane Society - with a good meal going to the dog!

Members of the Ontario Sport Parachute Club will sky-dive during the afternoon. Kelso Pool staff will direct a children's Water Sports Day - 3 p.m. at Kelso Pool.

The Halton Sportsmen's Club Trout Derby will draw hundreds of anglers to Kelso. Eighty dollars worth of prizes will be offered in each of two categories: Junior (under 14) and senior. Fishing hours will be from 9 a.m. to 5 p.m., with registration for the derby closing at 3 p.m. on Saturday. Awards will be given out immediately at 5 p.m. when the Derby closes. Local Boy Scouts will operate a bait concession for the derby.

**SUNDAY JULY 14**  
Sun Fun Sunday  
Kelso Dam Conservation Area

An outdoor funday for the family, activities include wandering bands, canoe races, children's art display, and sky-diving demonstrations.

Kelso Pool staff will demonstrate water rescue and artificial resuscitation techniques at 2:30 p.m.

Outdoor enthusiasts can compete in an Orienteering Skill Hike starting at 10 a.m. There are classifications for all ages: Junior - 15 and under, Intermediates: 16 - 19; and Teams of 6. Compasses will be available. This should be one of the biggest events of the week.

The Ministerial Association of North Halton will close off the week's activities with a Sunset Worship Service at 5 p.m. The nondenominational service will take place on the scenic Kelso hillside overlooking Glen Eden Lake at Kelso. Dress will be informal.

Mountsberg Wildlife Preserve, located four miles west of Campbellville, Campbellville Side-road, will be open to public tour throughout the Conservation Week. You can make reservations through the Authority office in Milton.

A painting contest for children in Burlington, Milton, and Oakville is being sponsored by the areas Recreation Councils.

# Campbellville, Waterdown split back to back games

Campbellville Juniors broke even in a two game series with Waterdown last week. Campbellville won the first game 2-1 and lost the second 7-6.

Campbellville Juniors defeated Waterdown Juniors 2-1 in a brilliant pitching duel in Waterdown last Wednesday. Allan Baynton of Waterdown and Bill Dennis of Campbellville both went the route and there was little to choose between them. Baynton, the loser, was the victim of poor support as he limited Campbellville to one hit. He walked five and struck out three. Dennis allowed one run off three hits. He walked four and struck-out eight.

Waterdown took a 1-0 lead in the second as Mike Crawford was safe on an error. He got to second on a wild pitch and to third and home on passed balls. Campbellville tied the score at 1-1 in the fourth. Howard walked and went to third on an error. He sprained his ankle at third and was replaced by Smith who scored when Baynton dropped the ball after Smith had attempted to score on a passed ball.

Dennis was safe on an error in the sixth, was sacrificed to second and scored on an error. Hunter, Mike Crawford and Ryan all singled for Waterdown. Peter Andrews got Campbellville's only hit.

Waterdown: - Baynton and P. Crawford

Waterdown evened their season series with Campbellville by eking out a 7-6 win in ten innings in Campbellville on Sunday.

Bill Dennis hurling his third game in eight days had a bad five run first inning as he allowed seven runs off 14 hits. He hit one batter, walked three and struck-out 13.

Jim Clark for Waterdown gave up six runs off nine hits. He hit two batters and walked seven while striking out 12.

Six hits, two walks, and an error produced five runs for Waterdown in the top of the first and it took Campbellville nine innings to catch up. The villagers dropped behind 6-0 in the third when Pat Crawford's double and Taylor's single produced another run. In the bottom of the third Campbellville picked up two without a hit as Clark hit a batter and issued four passes. A single by Dennis followed later in the inning by Patterson's double produced another for Campbellville in the fifth and closed the score to 6-3.

In the sixth a hit batter and singles by Robertson and Andrews made the score 6-4 and set the stage for the dramatic ninth and 10th innings. Losing by two runs Robertson doubled to open the bottom of the ninth for Campbellville and went to third as Andrews was safe on an error. Dennis' double to tie the score at 6-6. Unfortunately Dennis was out at third trying to stretch his hit into a triple and later McLaughlin hit and this would have ended the game for Campbellville.

Ryan was safe on an error in the 10th and scored from first on Henwood's double with the winning run.

Fochuk hit a double and two singles for Waterdown. Pat Crawford and Henwood doubled and singled, Clark singled twice, and Dodman, Hunter, Forth, Mike Crawford, and Taylor all singled.

Neil Robertson and Bill Dennis doubled and singled for Campbellville. Doug McLaughlin hit two singles, Allan Patterson doubled and Pete Andrews and Jim Early singled.

Campbellville's next home game is on Sunday July 7 at 2:30 p.m. with Milton supplying the opposition.

# W. Thring suspended following accident

Milton cars enjoyed a limited success at Flamborough Speedway Saturday night. In the first heat Brian Bussell started eighth and pushed ahead to finish in fourth spot. Also in the first heat Cliff Thring started third and finished last.

In the second heat L. Thring started 18th and finished 11th. In the third heat Brian McDuffe started third and finished 12th; Wayne Thring finished second after starting fourth and Wayne Howden moved from 17th spot to third.

W. Thring was suspended for one week after he smashed his car up in an accident with another racer. Thring's motor and body were both damaged but he is expected to be back in action Monday.

In the consolation Cliff Thring started second and dropped to last, L. Thring started 16th and finished 14th and McDuffe started in 24th spot and was unable to finish because of engine trouble.

In the feature Howden finished fourth after starting 17th and Bussell started 15th and finished in last spot.

--This week, June 23 to 29, is Water Safety Week in Milton and across Canada.

**PROLONGED PROTECTION with a complete CO-OP control program for flies and mosquitoes**

**CO-OP Livestock Spray**  
Long lasting protection against horn flies, stable flies and mosquitoes. Residual action builds up protection, cuts spraying need to every second day. Contains Ronnel, safe for use on dairy cows up to 2 minutes before milking.

**CO-OP Barn Spray**  
CO-OP Barn Spray with Ronnel, is ready to use against flies and livestock pests in and around livestock buildings. Control lasts four to six weeks with each spraying.

**CO-OP Fly Bait Granules**  
Scatter bait for use in livestock barns, sheds, pens, poultry cages and houses, garbage cans and outdoor living areas. Contains Dichlorvos, to control "resistant" flies.

**CO-OP Va-Per Fly Strip**  
Kills without contact. Poisons the insects in the air . . . controls flies resistant to many other chemicals plus other small flying insects. Ideal for use in animal buildings, milk rooms, storage rooms, garbage cans. Lasts up to 3 months.

**CO-OP Cygon 4E**  
Controls flies in and around livestock buildings as well as insects in fruit and vegetable crops. It contains 45% Dimethoate and must be diluted to a 1% strength before spraying.

**NEW CO-OP Livestock Spray**  
Contains an effective mixture of Cloftrin and Vapona (Dichlorvos) in ready-to-use form for spraying dairy and beef cattle. The Vapona effects a quick knockdown while the Cloftrin gives residual fly control.

**CO-OP Backrubber Solution**  
With Cloftrin and Vapona (Dichlorvos) is ready to use and needs no dilution. Backrubbers containing this solution will effectively control stable flies, horn flies, house flies, and lice on dairy and beef cattle.

**CO-OP Barn Spray and Backrubber Concentrate**  
Economize with a dual purpose product. Contains Ronnel. Readily diluted with water, deodorized kerosene or fuel oil.
