laws; and the notorious "38 Red Tape Steps" affecting a raw piece of land before any action can be taken to develop it.

The situation as it should be, according to the report, would have approximately 75 per cent of families in their own home—which means homes must be made available with relative ease to those earning \$5,000 per annum—without resorting to apartments or owner-maintained collective housing which will be the ghettos of poverty and unrest in future years.

First on the list for intense assistance are the special cases, including lower income families, aged people, the disabled and so forth. Subsidy rather than public housing is suggested. Land prices must also be held in check.

The government's role, the Halton committee suggested, is to remember since Canada is on the democratic free enterprise system, and government enterprise can seldom be operated more profitably than private ventures, all that is required of the federal authorities is to provide guidance, law, research and some limited financing.

Adequate tax revenue to maintain the country is, of course, required, and if the government intends to ease the pain by reductions in income or sales taxation, the deficit must be made up elsewhere.

Possible government courses of action, therefore, would include: establishment of revolving capital expenditures funds from which towns could draw to provide trunk sewers, the fund to be reimbursed through taxation of developers; formation of large tracts of land provision of services and auctioning of lots from it; heavy taxation of speculators' capital gains to discourage them in what would become an unprofitable

venture; negotiation with provincial and municipal governments to iron out problems in the education portion of land tax; co-ordination of a research program into building materials and methods; creation of self-sufficient satellite cities; mandatory acceptance of the National Building Code through withholding of N.H.A. funds from non-participating municipalities; creation or encouragement of private creation of a savings and loan institution and coincidental introduction of a variable tax rate, new mortgage and land title techniques and other benefits to cut red tape; escalation of establishment of regional government and regional planning and necessary transportation links; longer periods for N.H.A. mortgages, but with negotiable interest rates each five years; standardization of municipal service requirements (one would assume it rains twice as hard in Mississauga as in Burlington, according to storm sewer requirements presently in effect); reservation of a percentage of lots in approved subdivisions to avoid ghettoing; and encouragement of companies building homes for their own employees with a price ceiling and certain tax exemptions.

The report for the Halton Liberal Association was compiled by a select housing committee, including chairman David G. Butler, Roy M. Dalzell, J. V. J. Smith, P. J. Kelly, Mrs. Virginia Kennedy, H. H. Cripps, Ernie Bodnar, Willis Collinson and F. M. Fenton.

It was submitted to the Minister of Transport following his request for briefs from interested organizations who wished to assist him in his Hellyer Task Force on housing in Canada.

# SAFETY CORNER

### GETS ACTION AND ANSWERS

Just some "bits and pieces" this week:

What this town needs is more people who will carry to their jobs, the same enthusiasm for getting ahead that they display in traffic.

Don't forget to clean off your car windows before you head out to drive to work in the morning. Clean ALL of them.

The heavy frost produces a wet dew that clings to your car's glass, and you'll have a better chance of making it to work on time—and in one piece—if you've got clear four-way visibility.

Hallowe'en is approaching quickly and unfortunately, the celebration every child loves is often marred by tragedy. The kiddies get pretty excited and when they're wearing masks and costumes they sometimes get a little careless.

We hope all motorists will be on the lookout for youngsters in costume come October 31.

Leaf bonfires are another problem. Don't leave a bonfire smouldering by the roadside or some ghost, goblin or cowboy might go up in smoke with the leaves.

Automatic transmission cars are nice to own, but the Ontario Safety League points out the danger of leaving children unattended in an automatic with the engine running—even if you're in Park or Neutral position. If your parking brake is not on, a small child might imitate the actions of his parents and move the gearshift lever, starting the car towards almost certain collision.

The best bet is to shut your car off, put on the parking brake and remove the keys from the ignition. That way there's no chance of an accident caused by an under-age, unlicensed driver.

A pest control company has the right idea: "Drive carefully and leave the exterminating to us" says a sign on their truck.

## LOWVILLE

### Houghtons sell local store Mr., Mrs. V. Ellis new owners

By Mrs. L. D. Swallow

The U.C.W. Evening Unit, met at Lowville Church on October 16. Mrs. Glenna Colling was in charge of the worship service. Mrs. T. Ramshaw read from the study book on China. There was a brisk sale of the "Talent Night" goods. The monies realized from this sale go to the support of a child in Greece. It was decided that the ladies would cater to a "Box Lunch" on October 26 at the Plowing Match to be held at George Readhead's. On November 13 there will be a general meeting of the afternoon and evening groups when the ladies will be addressed by Mrs. Stainton, Presbyterian president.

Mr. and Mrs. Jack Davey, their family and Mrs. S. W. Park, enjoyed a leisurely trip through the Adirondacks last weekend. They report the leaves were at their very best.

Mr. and Mrs. R. Martindale of Sudbury were guests at the home of Mr. and Mrs. G. Coulson.

Brent Warren sprained his ankle, and young Brian Flock cut the back of his head when he fell from a swing. Lori MacAvella has not been well. A. Thompson fell from a horse and broke his wrist. We wish them all a speedy recovery.

Mr. and Mrs. F. O. Colling and Mr. and Mrs. W. J. Robertson motored to Owen Sound on Wednesday and visited with Rev. and Mrs. O. W. Holmes.

George Coulson, J. Davey and P. Fisher left Saturday evening for a week's hunting at Fox Lake which is about 50 miles northwest of Sudbury.

Rev. E.E. Baskier, B.A. B.D. preached the anniversary service at Nelson Church. He will also address the Plowmen's Banquet on October 26. Mr. Baskier will also conduct the Chapel Service at Joseph Brant Hospital at 9 a.m. on October 27.

Mr. and Mrs. G. Houghton, who are sorry to report, have sold their store at Lowville corners. However the Houghton family including Chris, David and Peter feel so "at home" here that they are going to continue living here in the future. In the time that the Houghtons managed the store it was done in a most friendly and efficient manner. The new owners are Mr. and Mrs. V. Ellis from central Burlington. They have four children ranging in ages from 20 to four years of age. At this time we extend a welcome to the Ellis family and trust they will be happy in their new home.

Our Burlington "TeenTour" Band will visit Philadelphia for a parade on November 28. They will be playing for the "United Appeal" on October 26. Look for our local group on TV. They will be representing Canada in Philadelphia.

PROTECT YOURSELF!

Nearly 600 Canadians are killed in fires each year. In a recent statement the Ontario Insurance Agents' Association urged homeowners to have their homes inspected by their local fire department as a preventive measure.

The church service on Sept. 22 was conducted by the United Church minister, Rev. C. A. Hainer, and the organist was Mrs. McNeil. The scripture reading was from Hebrews, Chapter 8, verses 8 to 15.

On the evening of Sept. 22, our friends from the
