

THEY SAY YOU CAN'T TEACH an old dog new tricks, but with such pretty teachers, what "old dog" would pass up a lesson? Vince Mountford found he was "all thumbs" when Canadian champion baton artists Dale and Elaine Hardman of Scarborough tried to teach him the secrets of twirling. Vince was master of ceremonies for the successful Hornby Garden Party and the girls were among the performers.

INSTANT VENTRILOQUISM was the name of the game when comedian and ventriloquist Cy Leonard called Heather Bailey and John Reid to the stage at Hornby Garden Party. You should have heard the sounds coming from the youngsters as Mr. Leonard capably proved he's the master of his voice-throwing act.

GENIAL JIM MCKAY was kept pretty busy at the ice cream cone concession at Saturday's 22nd annual Hornby Garden Party. He's pictured dishing up treats for customers Ellen and Steven St. John. Before the night was over he was running pretty low on supplies.

DISHING UP HOT DOGS was quite a chore for this crew at Hornby Garden Party on Saturday night. Many of the 4,000 who attended headed for the food booths where Dave McLeod, Dawn Jubb, Darlene Leslie, Elva Howden and Art Brooks were in charge.

ARE YOU IN THIS PICTURE? A big crowd was on hand for the 22nd annual Hornby Garden Party. This view shows part of the attendance. The annual garden party project was launched in 1947 and was held at Cliff Wrigglesworth's house, later moved to the Neelands farm, then to Clebert McDowell's and around 1965 found a new home at the new Hornby Park. Proceeds from the event finance the Hornby Ball Club's 14 teams including 200 children and adults. It was only rained out once in 22 years. —(Staff Photos by Roy Downs)

**NOW Polyester GLASS BELT**

The bias-ply star of the 1970 car!

Cotton was fair. Rayon was good. Nylon is better. Polyester is great. But Polyester Glass Belt is fabulous. The tire of today — and tomorrow — designed for all roads and all cars. Smoother. Stronger. Safer. Best mileage-getter. Car-makers scramble to get them on the 1970 cars. Canadian Tire has them now, believes in them strongly. For that skilful combo of tough polyester and silky Fibreglass is almost impervious to damage. Rolls out the road like a rolling pin rolls out dough. And speaking of 'dough' they do cost a bit more but give you so much more...

UP TO TWICE THE TREADWEAR — Because treads don't grind-off the rubber.

HIGH TWICE AS STRONG — as required by Government Safety Standards.

ON-COURSE STEERING — Won't wander. Requires less attention.

SPLIT-SECOND STOP-START TRACTION — Due to new secret-formula rubber compound.

SMOOTHER, EASIER ROLLING — Actually saves you gasoline.
