Neighbors dry, he's wet will check flooding

After a basement flooding that destroyed a recreation room J. Dellacourt, 413 Mountain View Dr., wondered if council couldn't check the situation. He noted neighbors on either side had dry basements but the house directly across the road and his own were subject to serious flooding.

Mr. Dellacourt admitted it was the first time he had complained to council although works staff had been up on occasions to check for sewer blockages.

Mr. Dellacourt said he realized Saturday was a bad storm but the problem occurs in minor rains too and he had spent \$1,000 in making repairs around

the house he hoped would relieve the problem.

Council agreed to have the problem investigated.

Mayor B. Best suggested that in future complaints be made in writing so there would be a record of them. He noted six houses in Kingsleigh Court had water in the basements, one with 15 inches and there may not be any easy solution to the problem.

Councillor P. Barr wondered if a start could not be made in installation of storm sewers to relieve the drainage from around basement tile now flowing into the sanitary sewers.

BEE HIVE OF ACTIVITY is the scene of the Robert St. pumping station as rebuilding progresses. Hydro workers are up the pole restoring service while bricklayers erect the building and electrical work continues inside the building. Completion was made by Tuesday evening following the early Sunday morning explosion that destroyed the first pump house.—(Staff Photo)

Seek Authority plans for Crawford Lake area

Specific plans for the use of the recently purchased Crawford's Lake area will be requested from the Halton Region Conservation Authority, members of Milton Council agreed Monday.

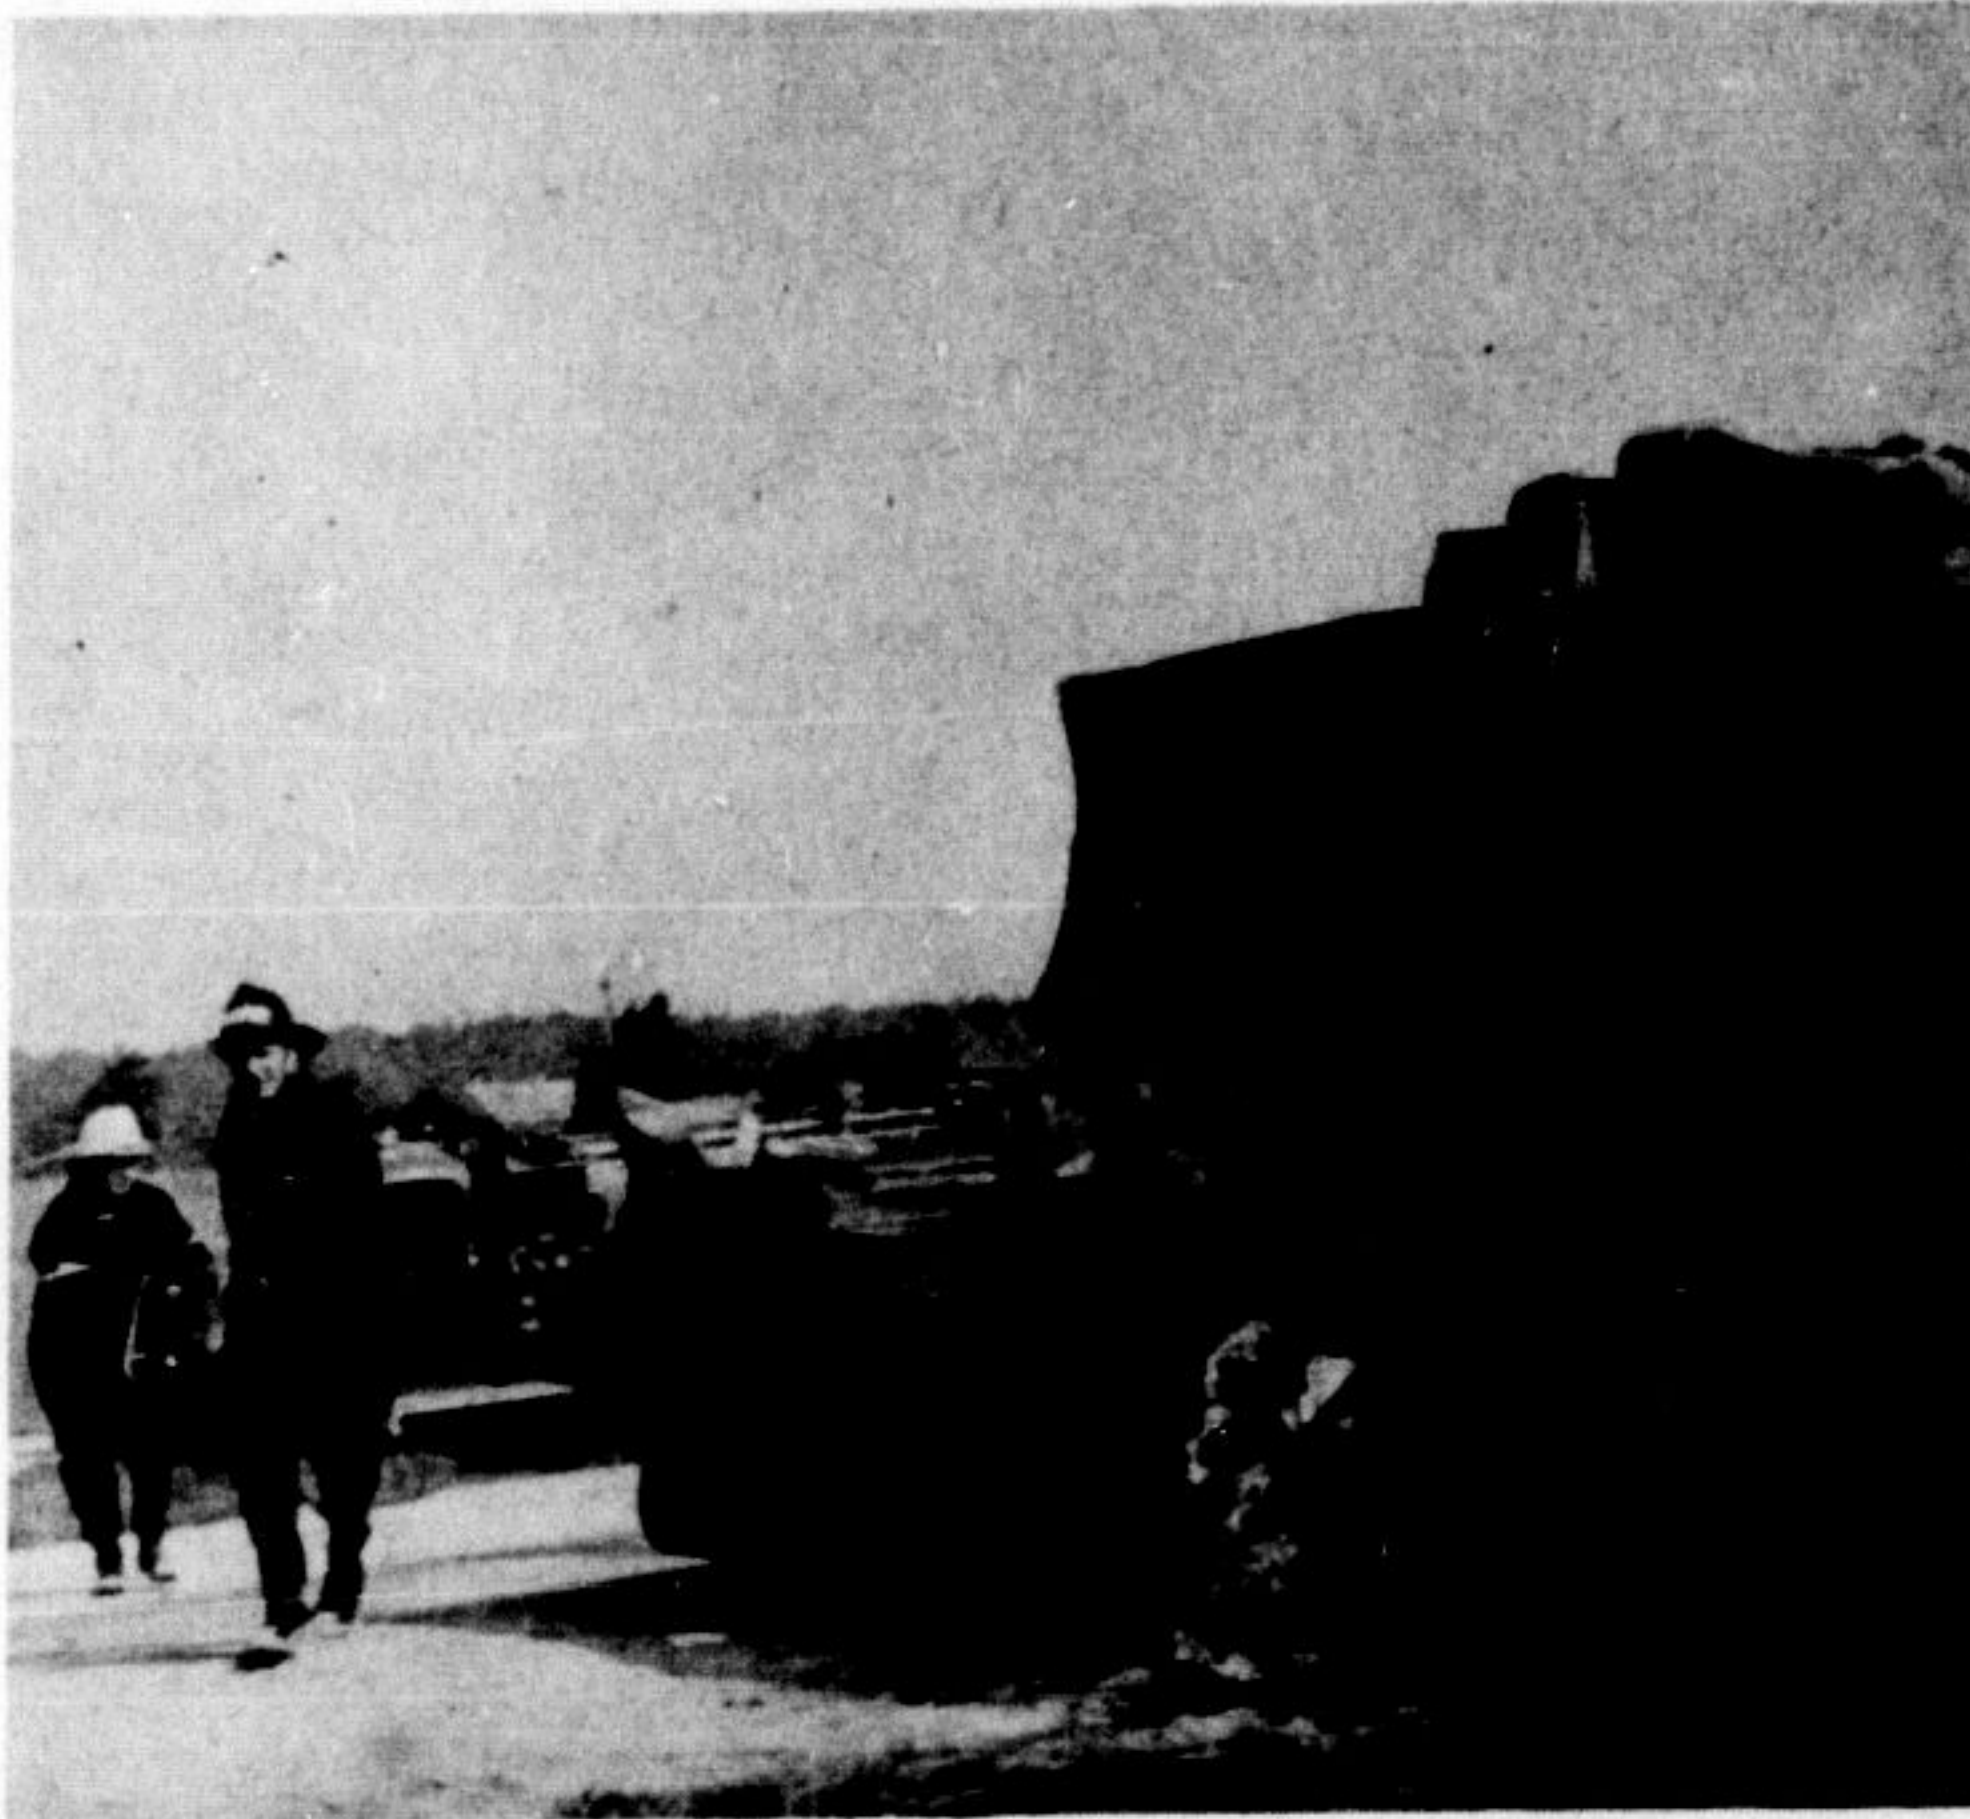

The action followed objections by Councillor C. Smillie that the area was posed

as not open to the public. "How can you spend public money for public lands and ban the public", he wondered.

"I don't think this council can go along with that kind of thing", he maintained. He also said he understood restrictions were taking place at Mountsberg where groups were not permitted to hunt ducks although this was permissible in other conservation areas.

Councillor C. Fay said he had inquired about access to Crawford's Lake and was told there was no objection to the public visiting the area "if they left nothing but their footprints behind". He said it was explained there were no funds in the budget to provide the kind of maintenance required to open the area.

Despite the advances in tuberculosis control, about one and a half billion people have been infected with tubercle bacilli—about half the world's population. In the countries with the highest populations there is 100 per cent infection by age 14.

RACING WATER to a truck fire are these members of the Milton Fire Area Brigade. The rear wheels of the truck are enveloped in flames following a flat tire on highway 401 west of Milton on Monday morning. Damage to the truck was estimated at \$800.—(Staff Photo)

Study emergency staff to assist town crews

Appreciation was to be expressed publicly to all who assisted during the storm, Milton Council agreed Monday and Councillor C. Fay added that thanks should also be expressed to all the irate ratepayers with flooded basements that didn't appear at council to complain.

He rephrased the suggestion, however, to express regret at the inconvenience of flooding and the damage done.

Mayor B. Best reported getting assistance from residents in the Woodward St. area to move large trees to keep them from floating

down the creek and obstructing culverts.

The mayor suggested the need for a part time emergency staff that could be called in during problems. He noted there were three employees who could operate the treatment plant and one had been hospitalized. The new pumping station at the treatment plant had large pumps and also a generator system for emergency power which would require some training to handle.

The matter of an emergency staff is to be discussed by the council next week.

Sleep-out and trips bring season to a close

Playground director Paul Foster announced day campers will have their last sleep-out of the season on Wednesday and Thursday nights with 20 campers out each night.

Altogether they have had 160 children out on five nights of camping.

Five to seven-year-old children left this morning for a tour of Riverdale Zoo in Toronto and are expected back by 3:30 this afternoon.

On Tuesday, August 26, a

busload of about 60 children from the playgrounds will be leaving for the CNE. They leave at 9 a.m. and are expected back by 5 p.m. Each child is expected to bring a lunch. The admission through the gates will be paid by the money raised during the recent Bounce-a-thon.

In 1975, more than twice the number of trees will be planted in Canada than in 1968.

EBENEZER

Martha and Mary sermon subject

By Mrs. R. McLean
Mr. Finley's sermon Sunday dealt with Martha and Mary. When Jesus visited there, as described in Luke 10, He was on His way to die. The sisters reacted differently to His need. Martha makes him a good meal, while Mary had the gift of listening.

Bible Commentators contrast Mary and Martha unfairly. Each did what she could. Jesus did not feel like a big meal. Mary served Him, in the way that best served His need.

In Quaker prayer-meetings, the worshippers sit quietly until the Holy Spirit speaks. A church bulletin was intended to report the title of the sermon subject as, "Hoping in the Lord." In error, it appeared as "Hopping in the Lord."

People think the more they hustle and bustle the more they get done. The need is to find a place to be quiet.

Lazarus had been dead two days before the news reached Jesus. Martha was the first person to hear the wonderful

words, "I am the resurrection and the life."

This immortal story tells us of the gift of knowing others' needs; of keeping faith strong and the great belief that Jesus is the Son of God.

Ebenezer anniversary is being held this year on Sept. 7, at 11.30 and 7.30, with Rev. Gordon Turner, of Acton, as special speaker.

Mr. and Mrs. Ed Wilson and family enjoyed a camping trip to the Maritimes.

Mrs. Don Joss and sons David, Dean and Douglas spent two weeks at Balm Beach.

Walter Lucas' many friends will be glad to know that he is home from Fergus Hospital.

Plan early for approvals council urged

Development of next year's road program this year was urged by Councillor Colin Smillie at Milton Council Monday as the town was advised by the Department of Highways no further supplementary road expenditures would be approved this year.

The councillor, chairman of the streets and walks committee, suggested the necessity of planning the road program now so engineering and department approvals could be obtained in time to permit a spring start on construction. He noted tenders were yet to be called on the Main St. reconstruction after engineering and DHO approvals were "dragged out".

Councillor Smillie also urged consideration of the purchase of road surfacing equipment by the town. "He would be able to do the work cheaper and let the Department keep their subsidies which require a lot of unnecessary engineering", he declared.

Councillor C. Fay suggested the town's engineering firm seemed to be taking them for granted. "I feel they work on our projects when they have nothing else to do", he declared.

Members reviewed the problems getting the new pumping station in operation at the treatment plant and action on delivery of the pumps came only after the engineers were requested to call the president of the supplying company.

ADVERTISEMENT Announce New Healing Substance: Shrinks Piles

Exclusive healing substance proven to shrink hemorrhoids and repair damaged tissue. A renowned research institute has found a unique healing substance with the ability to shrink hemorrhoids painlessly. It relieves itching and discomfort in minutes and speeds up healing of the injured, inflamed tissue.

In case after case, while gently relieving pain, actual reduction (shrinkage) took place.

Most important of all—results were so thorough that this improvement was maintained over a period of many months.

This was accomplished with a new healing substance (Bio-Dyne) which quickly helps heal injured cells and stimulates growth of new tissue.

Now Bio-Dyne is offered in ointment and suppository form called Preparation H. Ask for it at all drug stores. Satisfaction or your money refunded.
