BOB FARLEY PRACTICES a backhand while others at Milton tennis courts take lessons on the finer points of the game. A great number of youngsters have turned out for the session of lessons. Tennis is probably the most rapidly growing sport in Milton.—(Staff Photo)

MILTON TENNIS COURTS were humming with activity Saturday as lessons for the youngsters were provided. Youngsters lined either side of the court to get the feeling of hitting the ball.—(Staff Photo)

## Junior "A" teams draft six midgets

At least six overage midget players from the Tri-County Minor Hockey League will get a good shot at earning a berth with O.H.A. junior "A" teams next season.

Six Tri-County players were among 144 drafted last week in the annual overage midget draft.

### Georgetown due

Left winger Brian Beaumont and defenceman Bob Elinesky of Georgetown were drafted by Kitchener Rangers. Elinesky went in the 10th round, while Beaumont was an 11th round choice.

London Knights picked up two Tri-County players, defenceman John Held of Brampton in the eighth round and left winger Brian Bennett of the Ontario finalist Oakville Ranger squad in the ninth round.

### Late choices

Ron Sedlbauer, a left winger from Burlington, was an eleventh round choice of Hamilton Red Wings, while Chinguacousy goalie Terry Mastine went to Peterborough Petes in the twelfth round.

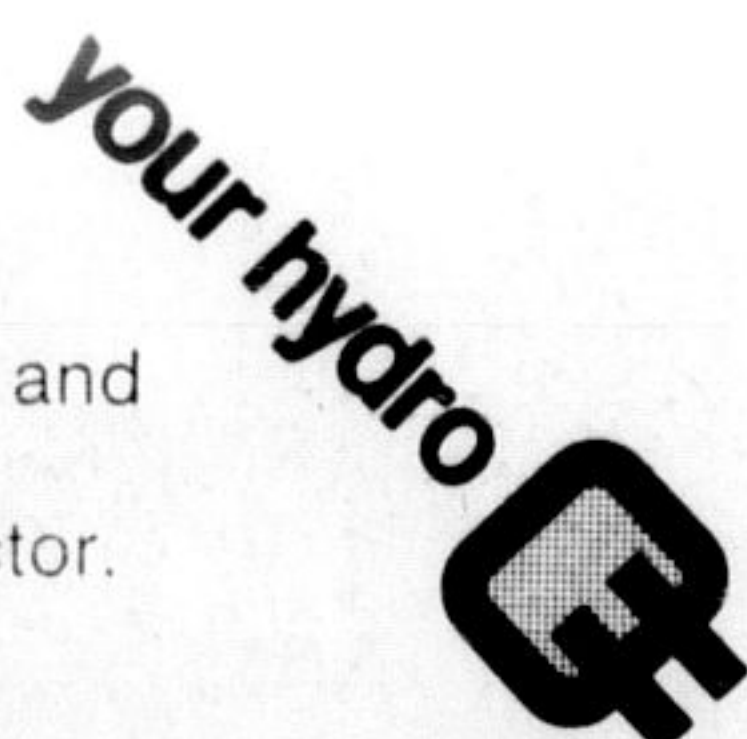

"It's the man about the wiring, ma'am."

It's true, living in any older home without up-to-date wiring just doesn't hold a candle to truly modern electrical living.

The changes that electrical modernization brings will brighten your life throughout every room in your home — for years to come. You'll have more outlets and switches where you want them, better performance from your appliances — and you can even add the year-round comfort of electric climate control.

And rewiring an older home needn't be complicated or expensive. The cost will probably be less than you imagine, and the Hydro Finance Plan makes it easy for you to budget.

For greater comfort and convenience — and an extra margin of safety, too — call your qualified Electrical Modernization contractor. Or ask your Hydro.

Before you forget how cold you were last winter get a Texaco furnace.

Next year isn't going to be any better unless you get a Texaco forced air furnace. It's designed to ensure the complete combustion of every last drop of oil. And oil means the most heat for the least money. Easy budget terms available.
