

# Release team lists for minor hockey

The 1971-72 edition of the Milton Minor Hockey Association House League swings into action at 6.30 on Saturday morning Oct. 30. Included with the team lists are the respective schedules (up to Dec. 11) so please clip and save for future reference.

Some of the names listed may not be staying on the team that they are down for right now. They could be moved to either a Minor or Major team yet, as rosters are not entirely fixed on these clubs. The Major (A) and Minor (B) team lists will appear in a future issue.

An MMHA spokesman said he was pleased with the participation in the Minor Hockey Walkathon held Saturday.

The following are house league team lists.

# Quits, rejoins planning board

Councillor Colin Smillie tendered his resignation as a citizen appointee to Milton Planning Board Wednesday, but will remain on the board as a council representative.

Smillie was named to the council after Bill Woods died suddenly several weeks ago. Planning board will be one man short until a member is named to replace Mr. Smillie.

# Charles Hotel is undefeated

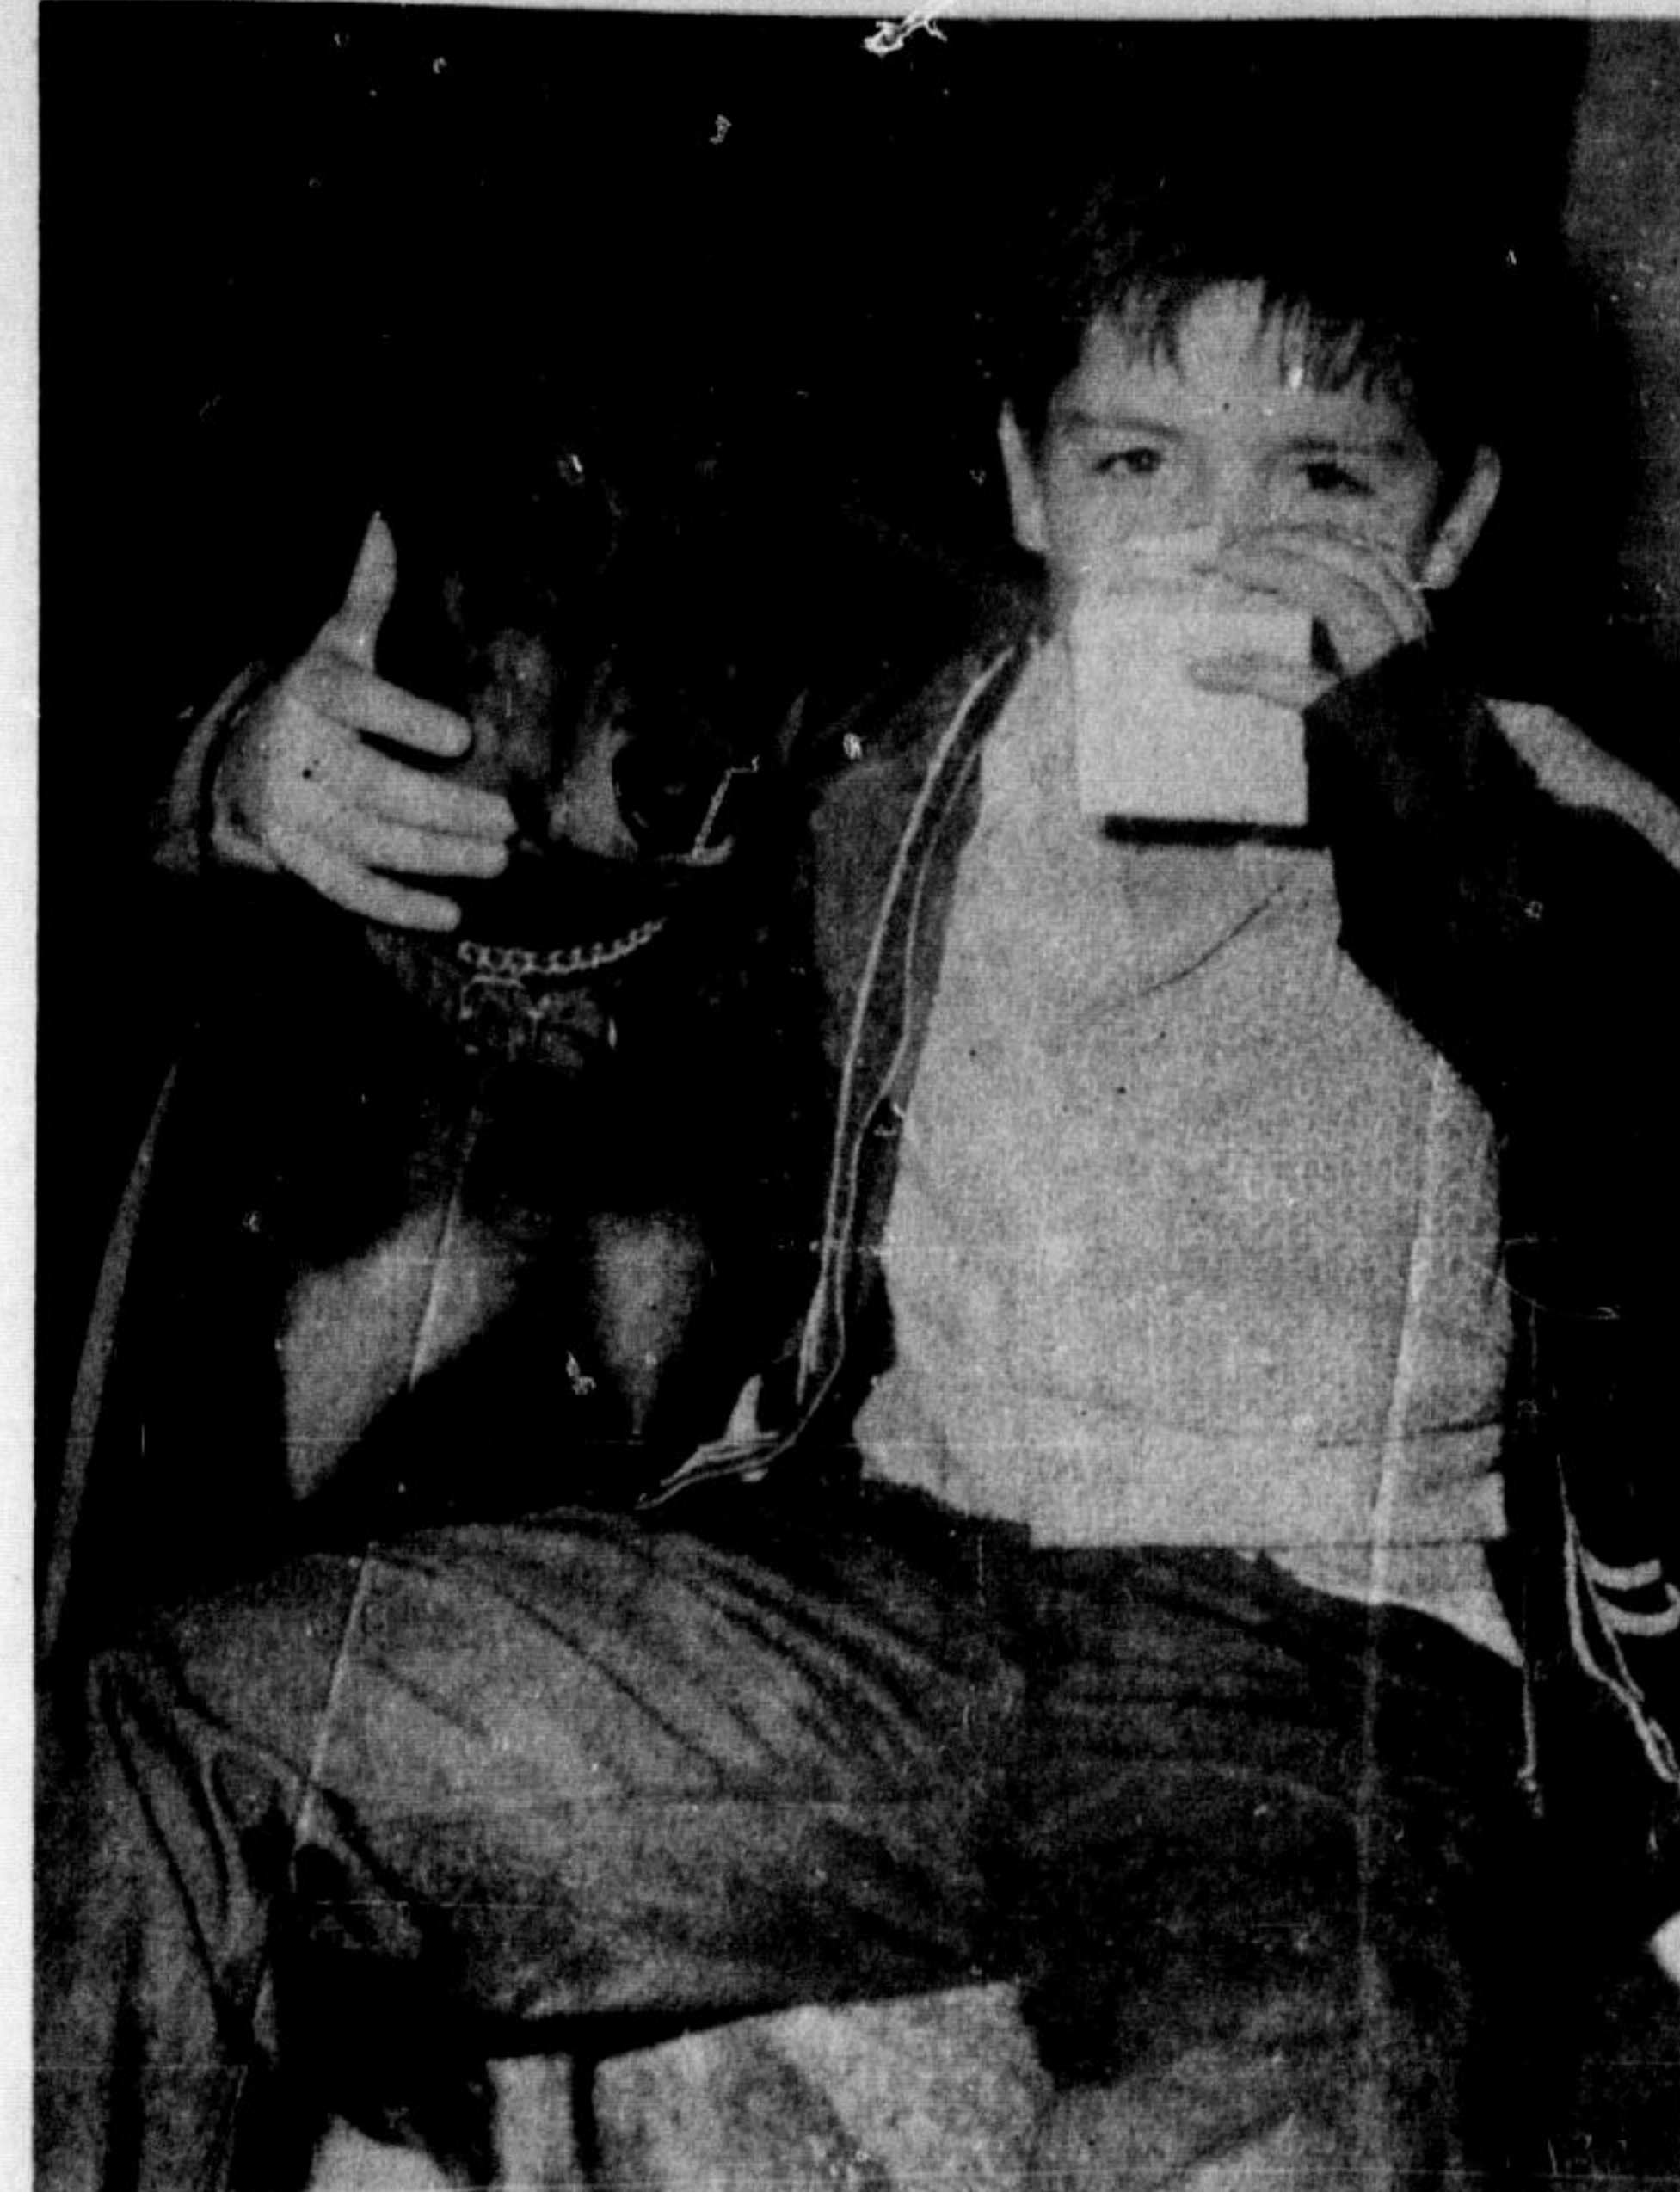

Keith Higgs and Gary Naylor paced Charles Hotel to a 5-4 victory over Schroeder's Construction Sunday for the third win of the season. After four starts the club is still undefeated in the White Oaks Hockey League. Both Higgs and Naylor scored two goals and an assist while Al Reid counted the only other Milton goal of the game.

Reid, Danny Boudreau, Tom Ramshaw and Bert Bertoli picked up assists. Ramshaw had three assists. Bob Robson, Burton Shaw, Youngman and Burton all scored for Schroeders.

In the other league game Barclay's Texaco edged Dorothy's Driving School 7-6. Doug Sarin and Holloway scored singles while Daley scored two

goals and three assists to pace the Barclay club. Thompson scored three goals to top the effort for the losing club. Charles is yet to be defeated and holds first place in the league.

# Pinto

...One tough little car.

Success hasn't changed the Pinto but we have enlarged the rear window on the Runabout for better visibility. Pinto is still designed and built for North American driving with lots of its get-up-and-go from super-efficient European engines and matching transmissions. very good reasons for you to buy the Pinto.

We say it's different because we designed it that way...36,000 miles between chassis lube. Brakes that are self adjusting. Besides, you can make minor adjustments on your own. We designed Pinto to be a do-it-yourselfer but if you're not so inclined, there are Ford dealers everywhere to take care of you.

Extra-Strength parts. The starter motor, ball and universal joints, and rear wheel bearings are heavy duty. The brake lines have a special rust-resistant coating and are doubly protected at critical points. There's zinc coating on key

underbody parts. More rustproofing than most little cars. And, in a 6-step process for greater and uniformity, Pinto gets 26 lbs. of paint not an ounce of which needs waxing.
