

A GULF GAS TANKER carrying close to 5,000 gallons of gasoline blew a tire and rolled over on its side Saturday morning, on 10 Sideroad just west of Bell School Line Burlington. Company officials dispatched a second truck to drain off the fuel before it was set back on its tires, and Milton Fire Department stood by in case of fire of explosion. Some

fuel leaked from the loading ports on the top of the tanker and the Ontario Water Resources Commission was notified, because there was a danger the spilled gas might contaminate a nearby creek. The driver suffered a bruised arm.—(Staff Photo)

**Hair care is important  
4-H stylists are told**

By Mrs. Cecil Patterson  
The fourth meeting of the Hornby South 4-H Stylists was held at Omagh church hall on Saturday March 18 with 16 members attending and two leaders.  
The girls had the pleasure and thrill of welcoming Ralph of the House of Hair, Milton Plaza. Ralph is a gifted hair stylist and has a large clientele of ladies and also many gentlemen coming to his shop. The girls enjoyed his talk and answering of their many questions. He advised using only good shampoos to wash often and keep the hair very clean and healthy. He displayed several types of combs and brushes and explained the various uses of them.  
Later Ralph, assisted by his co-worker Martin, spent several minutes with each demonstrating hair styles suited to their hair and features. He emphasized that "it isn't how long you wear your hair" but "how well you wear it long." Appreciation was expressed by club president Hedi

Nowak to these two gentlemen for giving their time and talent to visit the club. Tea and cookies were served by Rosemary and Monica Lukeuski.

**Standby at  
truck accident**

Because an overturned Gulf gas tanker presented a potential fire hazard, the Milton Fire Department was called out Saturday morning to guard the vehicle while Gulf workers transferred the gas to a second truck, reports Fire Chief A. E. Clement. Luckily no fire erupted.  
The truck had rolled over on the passenger's side, on 10 Sideroad, Burlington, west of the Bell School Line. A flat tire was blamed.  
The only other fire incident investigated by the local department during the past week was a flooded oil furnace at the home of William Gallinger at 316 Martin St., Monday morning. The fire was kept within the confines of the furnace and caused no damage, report firefighters.

**Suggest plan  
for the North**

By Mrs. Richard Sovereign  
Gary Price, hitchhiking the Pan American highway has spent time in La Paz Bolivia with an Indian family living in an adobe hut in the mountains. It was very cold and the roads were bad and curvy.

He caught up on some sleep in the back of a truck travelling 240 miles in 13 hours. In Sucre Bolivia, a young man 19, had the impression that Gary was broke so he took him to the city hall and talked the officials into giving him financial aid. They gave him 50 pesos—four dollars in American money, which goes a long way in Bolivia. It provided Gary with three of four days food and hotel accommodation. Another fellow at city hall who had a radio program was interested in his trip and asked Gary to go on the air with him for his nighttime half hour talk program. Gary was in conversation for 20 minutes and the next day met three people who had heard the show.

**Official plan**  
There were about 150 concerned citizens that attended a meeting where the proposed official plan for rural Burlington north of number five highway was presented. There will be another meeting like this on Thursday evening March 23.

The evening unit of the Lowville—Zimmerman U.C.W. met at the home of Mrs. Audrey Palmateer with the roll call being an Easter thought. The worship service was prepared by Bernice Willey.

Mrs. G. F. Kelly has been visiting with Mr. and Mrs. Burdge Gunby.

Several people from this community surrounding area brought their crafts to Kilbride school to display and demonstrate before a member of the Halton Board of Education. Unfortunately the board member was unable to be present. The enthusiasm was good though as people showed crafts such as oil painting of scenery and portraits, slip casting in a mold, hand building and wheel thrown ceramics, crocheting, candle making, wooden articles turned on a lathe, insect collections, sketching, bread making, rug hooking and accessories made from beads. The people hope this will show that there is a need for night school classes in crafts in this area of Burlington.

The Norval Ladies Institute Luncheon and card party held at the home of Mrs. Jack May on Saturday, March 18. There were 84 ladies present.
