

GLEN EDEN SKI AREA at Kelso is a busy place these days, now that the cold weather is here. Skiers, ranging from beginners to experts, head for the hills to enjoy a day's exercise on the well maintained slopes. Top photo shows some of the many people enrolled in the ski classes and top left, Bernadette Bell's skis double crossed her at the beginners' slope. Top right, the rope tow at the beginners' slope was busy most of the time, pulling skiers to the top. A ski lesson, middle right, was one of many such events on the weekend. Even the most expert skiers, bottom left and right, end up with more area on the snow than planned, and sometime need the assistance of the ski patrol to help them up again.

**Esquesing's \$38,000 railway fund becomes active**

Esquesing township's working reserve fund has been increased by \$38,000 following transfer of the money from a fund set up before the turn of the century by the Grand Trunk Railway. Council recently received Department of Intergovernmental Affairs approval to transfer the money, which Reeve Tom Hill explained became the property of Esquesing ratepayers, when a railway service through the township ceased to operate before 20 years elapsed as agreed upon.

French said the money was invested in the City of Hamilton Hydro Electric Company and interest earned has been used to decrease property taxes of ratepayers living north of the C.N.R. tracks, whenever possible. The money has always been referred to as the Railway Reserve Fund at Esquesing Council.

—Daily thaws and nightly freezes have kept local roads icy and slippery.

**A Mark of Progress in Milton**

Power for growth is just one of the necessary ingredients in meeting the needs of development. Milton Hydro Electric Commission is extending its facilities to insure that the required electricity is available in Milton. This new \$100,000 substation will approximately double the town's present capacity and will serve the full north east quadrant of the town. It is the town's third and another mark of progress.
