Start using the Government's own rules to save a bundle on income tax.

Here's a perfectly legal way to use the Government's own rules to save on income tax.

The Government has a law that says in effect; "If you save now for your retirement, we'll let you pay as much as \$4,000 into a registered retirement savings plan every year, and we'll let you knock it off your income".

(It used to be \$2,500, but this year the Government has upped it to \$4,000. Some things are getting better.)

So you merely lower your taxable income by putting up to \$4,000 in our registered retirement savings plan and don't pay the tax on it.

Say you're self-employed, married, have two dependants under 16 years of age and earned sixteen thousand in 1972. Depending on the province you live in, your tax saving could amount to \$1,161 which is a bundle in any man's language.

To top it all off, the money you save can make more money. Essentially there are four ways you can do this. You can have us invest it in stocks. You can have us invest it for a guaranteed rate of interest. You can have us invest it in income producing bonds

THIS YEAR YOU MAY ALSO WIN A \$2,000 BUNDLE OF LOOT TO BOOT.*

*ASK FOR DETAILS AT PARTICIPATING BRANCHES and mortgages. Or you can divide your money up using any combination of these three alternatives.

The beauty of it is: You can actually control the combination as your needs change over the years.

For instance you could invest in stocks for several years, for long-term growth. And then as you get closer to retirement, you might want to switch to a guaranteed interest rate.

And you can get your money out without paying a penalty.

When you eventually choose to withdraw it, you have to pay taxes on it at that time, of course. But this is what's most important. You pay tax on your money when you decide to pay it. This means later, when you're likely in a lower tax bracket.

This has led some to call this plan a tax shelter.

One fellow we know plans to pay into it for several years, watch it grow, then take it out to replace normal income while he lazes in Majorca.

But let's face it, the real benefit comes from leaving it in 'til you retire.

Moreover, we don't have a lot of salesmen out making calls, therefore you don't have to pay sales commissions.

This means, however, that you have to call us. Don't put it off. You can't deduct any deposits from your 1972 income after Thursday, March 1st, 1973.

If you're short of cash, talk to us about a low cost loan. The interest is deductible from your taxable income so you'll still save a bundle.

Make the rules work for you. Phone us now!
