GET THE SNOWMOBILES OFF TOWN STREETS

The first snow has fallen in my area, leaving in its wake a six inch blanket of white fluffy down to cover the earth and

To me it is a very picturesque time of

But to some, well the snow has a different meaning. These people are the possessors of that wonderful mechanical device known as the snowmobile wonderful when used for its originally intended purpose, to open inaccessible

Used as a sporting device, in the hands of a few they bring death, destruction and ruination to our environment, not to mention noise, added air pollution, and another means of sapping our country's fuel resources.

What kind of sport is this if it takes lives

at an ever-increasing rate? Since the advent of this sport the increase in the death rate of winter activities

has been astronomical. Last night I came across a not un-

common situation on our town's streets Three, yes three children not more than nine years of age, hurtling down our street at a very high rate of speed on a snow-

mobile. From first hand experience, I know how uncontrollable a snowmobile can be on hard packed snow or icy streets in regard to manoeuverability and braking.

Even banning this sport to confined and controlled areas is no answer. When there are rules, a few will break them causing injuries and death.

A few will cry out, that guy is pre-judiced! Am I? Not really, I have driven them on numerous occasions in the country and enjoyed myself, but I must repeat there are a few, yes only a handful of irresponsible adults who spoil it for the rest. You can read in the paper daily about the needless deaths and injuries caused by this

Judge for yourself, am I wrong? Let's get the snowmobile off our streets and roads in Halton County.

> G. Hickman, Milton.
