

3 games in 3 nights Dufferins post win, ties

Milton Dufferin Quarry Minor Midgets drew Streetsville a pair of 1-1 ties and upset Guelph 7-4 within three straight days of tri-county play this week.

Dufferins played well in Streetsville Saturday with only Steve Hannon, Doug Strath and Perry Caputo on the defensive squad. Captain Strath was ejected from the game in the third period.

Dave Turner scored for Milton in the first period but Jim Zardo netted a Streetsville goal in the final stanza.

Called back
One Milton goal was called back.

Netminder Kris Munro was strong between the Milton posts.

In Guelph the following day George Trencs led the Dufferins with a hat trick from the defense. Dufferins played with only three defencemen.

Turner scored a pair of Milton goals and drew an assist on another. Guy McGinnis and Bill Lyons added single goals for Milton.

Assists came from Mike Fraser with four, Caputo, Jim McKerr, Hannon, Rod Gooding and McGinnis.

An overpenalized Milton crew turned in a lot of penalty killing time.

Milton outshot Streetsville Monday night 18-11 but Turner was the only one who managed to score from Fraser and Paul Shields.

Lost Hannon

Dufferins were without Steve Hannon after the rearguard suffered damaged ligaments in Guelph. Against Streetsville the Midgets showed admirable restraint. Guy McGinnis turned in a

strong checking game. Dufferins played in Brampton Tuesday night - the fourth game in as many nights.

Playoffs begin against Streetsville in about two weeks.

Correction

The Champion mistakenly reported last week that Robert Cook, Milton drove his car into another vehicle driven by Fred Verstraete, Milton.

In fact, Cook was driving along Fulton St. when the Verstraete vehicle backed out of a laneway, striking Cook.

MILTON FIRE BRIGADE was called to the home of Fred Herensberger, 15 Sideroad near Speyside early Sunday morning when a garage burst into flames. Lost in the blaze were a '72 Plymouth and a '69 Ford pick-up truck. Milton detachment of the OPP say the fire may have started in the car's block heater.

(Photo by S. Dills)

Two trucks collide damage is \$2,500

A northbound tractor trailer received \$1,500 damage Thursday morning when it collided with a Ford truck at the corner of Highway 25 and 25 Sideroad, just south of Acton. Towing crews worked until late afternoon to clear

the area. Driver of the tractor trailer William James Robson, 37, of Hamilton received bruises when the collision directed his vehicle into the west ditch where it lay prone in the snow and mud. The '73 GMC tractor trailer unit is owned by Lanor Niagara, a St. Catharines based company.

Cab damaged
Damage was limited to the cab of the vehicle. There was no damage to the trailer. Gordon Pagett, 35, R.R. 3, Guelph and a passenger Barbara Rankin, Guelph, received minor cuts and bruises as their '63 Ford truck received \$1,000 damage. All victims were treated and released from Milton District Hospital.

Pagett was making a left turn onto Highway 25 from the sideroad as the tractor trailer approached, police said.

ACCIDENTS

In thick traffic, drivers who try to go much faster or slower than the mass of other vehicles, often cause accidents and always cause irritation. Try to merge with the traffic flow—don't try to beat it, the Ontario Safety League suggests. Adjust your actions to traffic changes.

E. Robson gets Q.C.

Burlington city solicitor and president of the Halton and Halton East Liberal Association, Elizabeth Robson has been named a Queen's Counsel. Miss Robson was one of 96 Ontario Lawyers honored when Attorney General Dalton Bales made the announcement. Miss Robson lives in Halton Hills.

Of the 96, three were ladies. Queen's Counsels wear silk gowns instead of cotton and sit at the front of the court.

CANADIAN METER GIRLS January 3

Ladies' high single, Ella Rigo 238; ladies' high triple, Ella Rigo 662.
Other good triples, Glenna Rusk 638, Joan DeForest 626, Ruth Twiss 626, Yvonne Teasdel 617, Mary Heipel 599.
McPhail won for a total of 55 points, Sciszzi for 53, Coates for 51, Schultz for 50, Linder for 47, Cooler for 46, Connor for 46, Baverstock for 44.

Across the Editor's Desk

By Roy Downs

We goofed again.

Readers may be wondering who this new councillor "Russ Kerr" might be—the one listed as a member of Milton's 1974 council in a front page story last week. There's no such person, and our faces are a little red.

Typesetters in our plant skipped a line of copy when the list was being set in type. Here's the proper way the paragraph should have read, with the words missing from last week's story in blackface type:

Representatives on the new Milton Council are Mayor Anne MacArthur, North Oakville representatives Don Gordon and Rick Day, Nassagaweya and Burlington representatives Russ Powadiuk and Bradford Clements, regional representatives Jim Watson and Mrs. Marjorie Powys, and Milton representatives Art Melanson, Jim Kerr, Ron Harris and Gord Krantz.

Now we know how it's done. Milton Kinsmen Club bulletin recently told the story of a country newspaper editor who retired with a big fortune. Asked the secret of his success, he replied: "I attribute my ability to retire with a \$105,000 bank balance, after 30 years in the country newspaper field, to close application to duty, pursuing a policy of strict honesty, always practicing rigorous rules of economy, and to the recent death of my uncle, who left me \$100,000."

This one has been around before, but it's worth reprinting here. It's a little doggerel called "Man's Pedigree."

Three monkeys sat in a coconut tree
Discussing things as they're said to be
Said one to the others
"Now listen you two
That's certain rumor that can't be true
That man descended from our noble race
The very idea is sure a disgrace

No monkey has ever deserted his wife
Starved her babies and ruined her life
And you've never known another monk
To leave her babies with another to bunk
Or pass them on from one to another
Till they hardly know which one is their mother

And another thing you will never see
A monk build a fence round a coconut tree
And let the coconut waste
Forbidding all other monks to taste
Why, if I put a fence around this tree
Starvation would force you to steal from me

And here's something else a monk won't do
Go out at night and get in a "stew"
Or use a gun or a club or knife
To take some other poor monkey's life
Yes, man descended—the ornery cuss—
But, brother, he didn't descend from us!"

Feb. 8, 9 and 10

Winter carnival events will cater to all ages

A variety of activities is being planned for the annual winter carnival to be held in Milton Feb. 8, 9, and 10. An effort is being made to have many attractions that will cater to a wide variety of interests. There'll be lots of spectator events as well as competitive events. Recreation Director Bob Small reports.

Friday evening the three day event will get under way with an official opening and tree burning at Rotary Park. The tree burning has become a tradition in the town.

Following the official opening and the announcement of the snow king and snow queen Friday night,

public skating will be arranged at the mill pond in nearby Centennial Park. Efforts are being made to have hot refreshments available at the pond to warm the skaters.

Movies too
While those who enjoy the outdoors are sure to take advantage of the skating, others may enjoy activities planned at the Rotary Park community room. Movies are tentatively being arranged for that night in the community room.

Saturday will be a big day with more events planned than any individual can take in alone. Snowmobile races will be one of the big at-

tractions. Committee chairman Bob Small indicates a good amount of interest has been shown in that event.

Other events planned for the Saturday include cross country skiing demonstrations, snowmobile rallies and demonstrations, rides, a handicraft exhibit, a variety show and a long list of competitive events for young and old.

One or both
Saturday evening two dances will be held in buildings at the fair grounds. Two bands, one Oom Pa Pa band and the traditional band have been engaged. One ticket will admit guests to one or both of the two dances.

Because there are two types of music being held, committee members felt dancers may enjoy a change of pace. Dress will be casual in keeping with the mood of the Winterfest.

Most of the events planned for Sunday will be held in Milton Arena. Figure skating demonstrations by the local club as well as a broomball game and a hockey game are tentatively planned for that day.

Boys vs. girls
Arrangements are being made for the high school boys to play hockey against a girls' hockey club. That is expected to be the greatest male-female clash since Bobby Riggs and Billy Jean King met on the tennis courts.

Once again snowmen tags will be the key to the carnival and they will go on sale this week.

Authority supports water level checks

Water levels in the lower Great Lakes System have risen substantially during 1973, resulting in serious property damage and erosion along the shoreline. Halton Region Conservation Authority is supporting a resolution by the City of St. Catharines to the federal ministry of transport to provide up to date reports and future trends.

Murray Stephen, general manager of the authority,

concur that a better system of predicting high water periods is needed.

Information presently available from various sources is sometimes confusing, contradictory and out of date, according to the authority.

Lake levels are under continuous study and analysis by the senior governments and government agencies. William Kempling, MP for Halton-Wentworth, and Terry O'Connor, MP for Halton, will be asked by the authority to make representations to the ministry.

SNAKES

The most dangerous animals on the North America continent—by a margin of 1,000 to one—are not bears, mountain lions or wolves, but poisonous snakes, says the Reader's Digest. Although the death rate from snakebite is low, for the victims the ordeal is a dreadful experience sometimes resulting in weeks or months of permanent crippling, the loss of a hand or foot, or lasting handicaps.

"... and another great feature — it has 1286 fewer parts to worry about."
