

Town . . .

(Continued from page 1)

dustrial development road. According to Don Farmer, Regional Treasurer, this project may still be applied against the 1973 allocation. It is before the Ontario Municipal Board now. At any rate Farmer advised the council it would have to budget for work on Bronte St.

that had been applied for earlier but rejected from last year's allocation on an OMB oversight.

Council will debenture a \$200,000 storm sewer project on Bronte St. The storm drains will be placed for 1,500 feet along Bronte St. and flow into the 16 Mile Creek.

Build sidewalks
Council voted to provide sidewalks on Ontario St. for a distance of 3,050 feet at a cost

of \$25,000. The sidewalk will facilitate pedestrian traffic on the east side of Ontario St. near the senior citizen apartments. That project will be financed out of the current funds.

Engineering for five road projects will be carried out this year and charged against current finances.

The engineering program includes engineering for road construction on Main St. East from Ontario St. to the Third

Line, road construction on the Ninth Line from Derry Rd. to Highway 401, and bridge construction for the Sixth Line bridge below Britannia Rd.

Other engineering programs include \$5,000 for construction of First Line from Britannia to Lower Base Line and Lower Base Line from Fourth Line to the Fifth Line.

\$59,000 worth
In each case engineering

will be done this year and the actual work will be done in future years. A total of \$59,000 was allotted for engineering.

Council authorized the construction of a relief sanitary sewer on Robert St. at a cost of \$112,000. Completion of this project would allow the town to do away with the Robert St. pumping station.

An amount of \$80,000 was put in the budget for construction of a water line along the Third Line from Main St.

to Steeles Ave.

Ballpark
Planned construction of a Brookville ball diamond at \$39,700 was allowed for, while council voted against going ahead with Brian Best Park this year. Council agreed the former landfill site should have a year to settle before construction of a park took place there.

Renovations to the pool in Rotary Park are estimated to cost \$63,000. An amount of

\$50,000 for landscaping, parking lot improvements and new equipment was allowed for the new arena.

Meanwhile \$40,000 was set aside for furnishing and landscaping at the new library.

Distribution and equipment maintenance for the hydro commission will cost \$100,000. Phases two and three of the channelization program will cost \$327,000. This will take

the channel from south of Main St. to Parkway Dr. and from the CPR to the Steeles Ave.

Fire hall extension
Council set up a sinking fund and agreed to put \$63,000 a year into the fund to cover the costs of developing an extension to the firehall and the provision of a fire truck with an aerial ladder.

Work planned for Queen and Thomas Sts. has been

delayed a year. The two projects are estimated to cost \$282,000.

Several projects that had been recommended earlier for construction were deleted but engineering studies were authorized.

Council delayed the construction of a two million gallon water reservoir expected to cost \$300,000. Council will start into the operating budget soon.
