

# Chamber works to build better community for all

This article on Chamber of Commerce Week was contributed by Ron Harris, secretary of the Milton Chamber.

Most progressive communities in Canada have a Chamber of Commerce or Board of Trade. Although there is some variation in structure, methods and ac-

tivities of these community organizations, they follow a pattern sufficiently uniform to justify their identity as a significant factor in Canada's democratic system.

Chamber of Commerce is a voluntary organization established to promote civic, commercial, industrial and agricultural progress of the community and district which it serves and to work for sound legislation and efficient administration at the community and all levels

of government." Our Chamber is people, working together, to make our community a better place in which to live and make a living.

This simple definition gives an action picture of our Chamber:

a) PEOPLE: Bankers, lawyers, manufacturers, doctors, advertisers, clergy, teachers, retailers, wholesalers, sales personnel, business and professional men and women who share a common interest and pride in Milton, what it is, and especially in what we are going to make it.

b) WORKING TOGETHER: We meet as a group or in committees, analyzing problems, proposing solutions, initiating discussions, examining related facts, acting in accordance with the expressed will of the majority, making mistakes sometimes, but

constantly striving to build a better community and improve business.

c) TO MAKE OUR COMMUNITY A BETTER PLACE IN WHICH TO LIVE AND MAKE A LIVING: A safer, cleaner, more beautiful place; a place where our businessman, farmer, industrialist and educator acknowledge a mutual dependency which, because it is understood and accepted, is a challenge to each and a source of pride; a place where the industrialist can find a promising site, the tourist a vacation dreamland, the visitor a sure and friendly answer to his question and the neighbour... a neighbour. A town that is concerned about progress, where we strive to eliminate the margin of discontent and look with a critical eye on crowded streets and frown at buildings with faded grim facades.
