Milton, Ont.

## MEET BIG JOHN at the INTERNATIONAL PLOWING MATCH

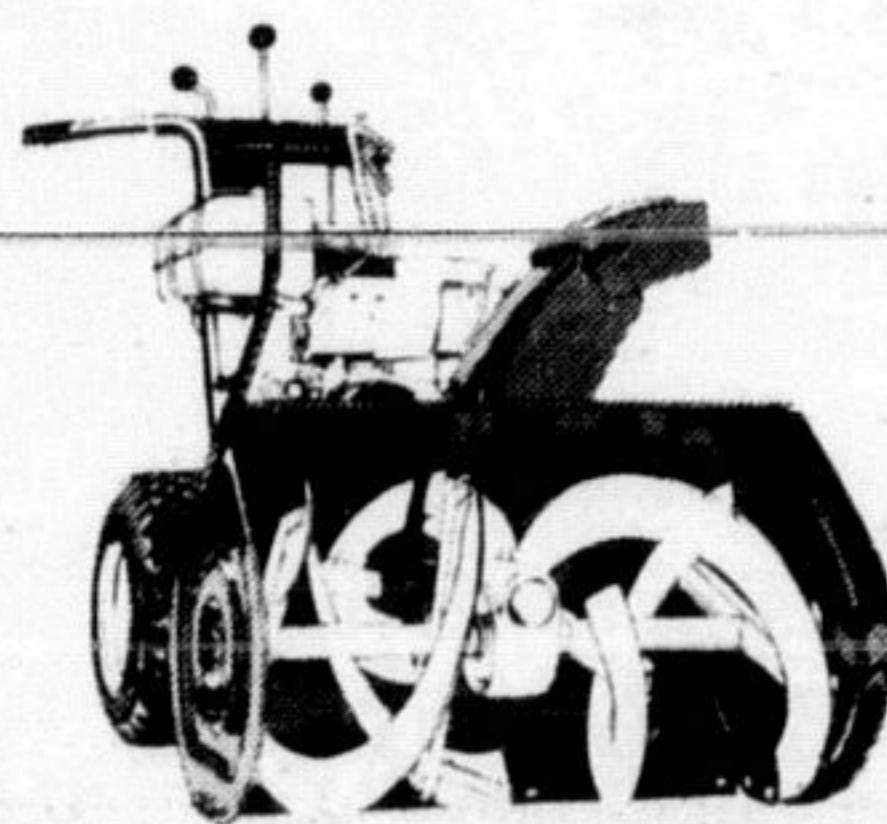

Introducing  
the 1975  
John Deere  
Snow Machines

### John Deere JDJ

- See new styling: the sleek, low-profile look.
- Look under the hood: reed-valve engines, 340 to 440cc's.
- Feel the comfort: energy-absorbing seat; near-at-hand controls.
- Get 'em all: wide-stance skis; adjustable slide-rail suspension; rivetless track.

### Green Machines

- See new "Mean" Green color.
- Compare engines: 292 to 440cc's.
- Check the bogie-wheel suspension.
- Try the Widetracker for extra flotation.

Nothing runs  
like a Deere

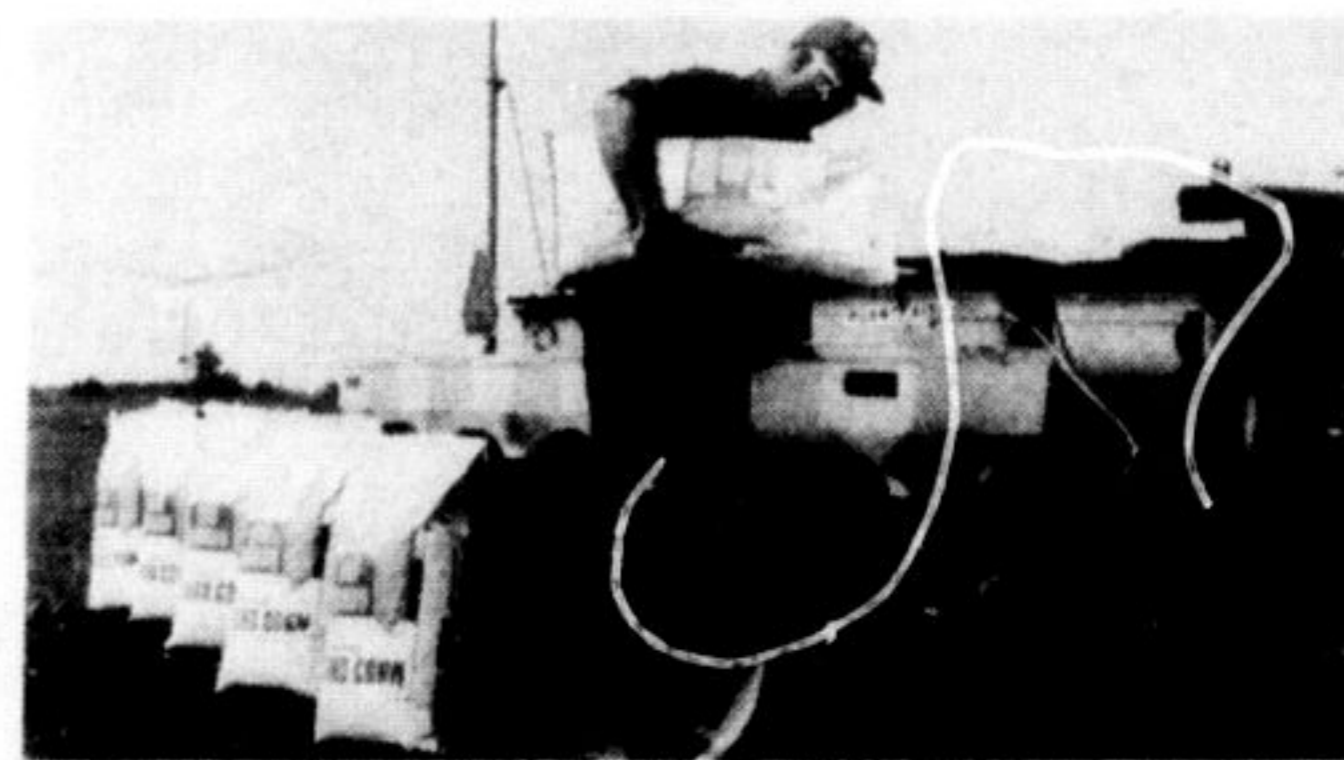

### John Deere Snow Blowers

- Get good traction to clear walks and drive-ways fast.
- Clear a 26-in. path with 5- and 7-hp blowers, or a 32-in. path with 8-hp.

# the CO-OP store

Welcome to the Plowing Match!

*Did you know?*

Each growing season, more Ontario acres can be used for corn production. Earlier maturing varieties developed by your Co-operative make it possible. They're changing the Ontario corn map. Every year, CO-OP research keeps adding to the growing line of CO-OP Big Bonus seed corn hybrids. Our objective? More acres of Ontario corn and more bushels from every Ontario acre. Talk to our crop specialist about the proven CO-OP Big Bonus varieties with the characteristics that will fit your farm and your yield goals.

Heat Unit Areas	Big Bonus Varieties
3500	S345, 335
3300	S345, S327, S326, S300
3100	S326, S327, S300
2900	S280, 277, S300
2700	277, 266, 267, S265
2500	S260, 264, 266, S255, S259
2300	S255, S260, 264

We like to know our customers  
by name!
