

YOGA IS MOST POPULAR night school class this term at Milton District High School. Instructor Charlotte Nielsen (far right) does some warming-up positions with Sandra Barlow (left)

and Helen Steeves before the two hour class Thursday evening. A total of 230 people are pursuing an assortment of activities throughout the week.

230 enrolled at night school

There are 230 people enrolled in night school classes at Milton District High School. Sponsored by The Halton Board of Education, the classes run Monday through Thursday, the first set running for 10 weeks.

The most popular class this year is Yoga taught by Charlotte Nielsen. Thirty-two people meet each Thursday night between 7.30 and 9.30. Fitness first. In order of popularity by numbers of people enrolled the classes are: Fitness and

Recreation 26, Sewing 23, Interior Design and Decoration 20, Crocheting 19, Creative Stitchery and Book-keeping for a Small Business 17 each, Bridge 15, Beginning Typing 14, Home Plumbing 11, Furniture Refinishing and Winemaking each 10. Auto

Maintenance 8, and Small Engines 7.

There are no credit courses running this term as there were less than the required enrolment of 15 persons for the classes offered.

Courses will be re-opened for enrolment in January and again in the spring.

Mr. and Mrs. E.A. Wood

Couple celebrate 66th anniversary

Probably the longest-married couple in Halton, Mr. and Mrs. Elias A. Wood of Walker's Line, Burlington celebrated their 66th wedding anniversary on Thanksgiving Day, Oct. 14.

The happy, hale and healthy couple had a quiet celebration on the actual anniversary as their only daughter Mrs. Isobel Portch who lives next door, was away on a holiday trip. But things got livelier this week when their only grandson Stanley (Sam) of Panama came home for a brief visit, bringing his wife and four-month old son. The newborn child is the Woods' first great-grandchild and they were thrilled to see him for the first time this week.

They received many cards, flowers, gifts and best wishes on their anniversary. Both are still enjoying good health and he just recently bought a new car as he likes driving around the countryside. Mr. Wood is 86, his wife 84.

Famous family The Woods have lived here 17 years, ever since he retired as branch manager of the Montreal office of Moirs Chocolate Co. They live in a cottage next door to Mrs. Portch at 5071 Walker's Line between Two and Four Side-road.

His ancestors Thomas and Hannah Patterson were the first white couple to settle in what is now Scarborough, back in 1757, and he is the seventh generation on his mother's side to live on Canadian soil. Mrs. Wood is the former Margaret Maynard of Uxbridge and they were married in Toronto Oct. 14, 1908. They lived in Western Canada and Montreal before moving to their R.R. 2, Milton retirement home.

Mr. Wood is an active Mason and was secretary for 10 years at White Oak Chapter in Oakville. Mrs. Wood has always been active in Eastern Star and White

Shrine, Toronto. They are also members of the United Church.

FOR ONE ONLY Administration of any medicine is a serious responsibility. St. John Ambulance stresses that medicine ordered for one person should never be used for another.

TWICE THE ICE Did you know that ice is twice as slippery at 30 degrees as it is at zero? It is also twice as long to stop, the Ontario Safety League warns motorists.

EQUAL OPPORTUNITY

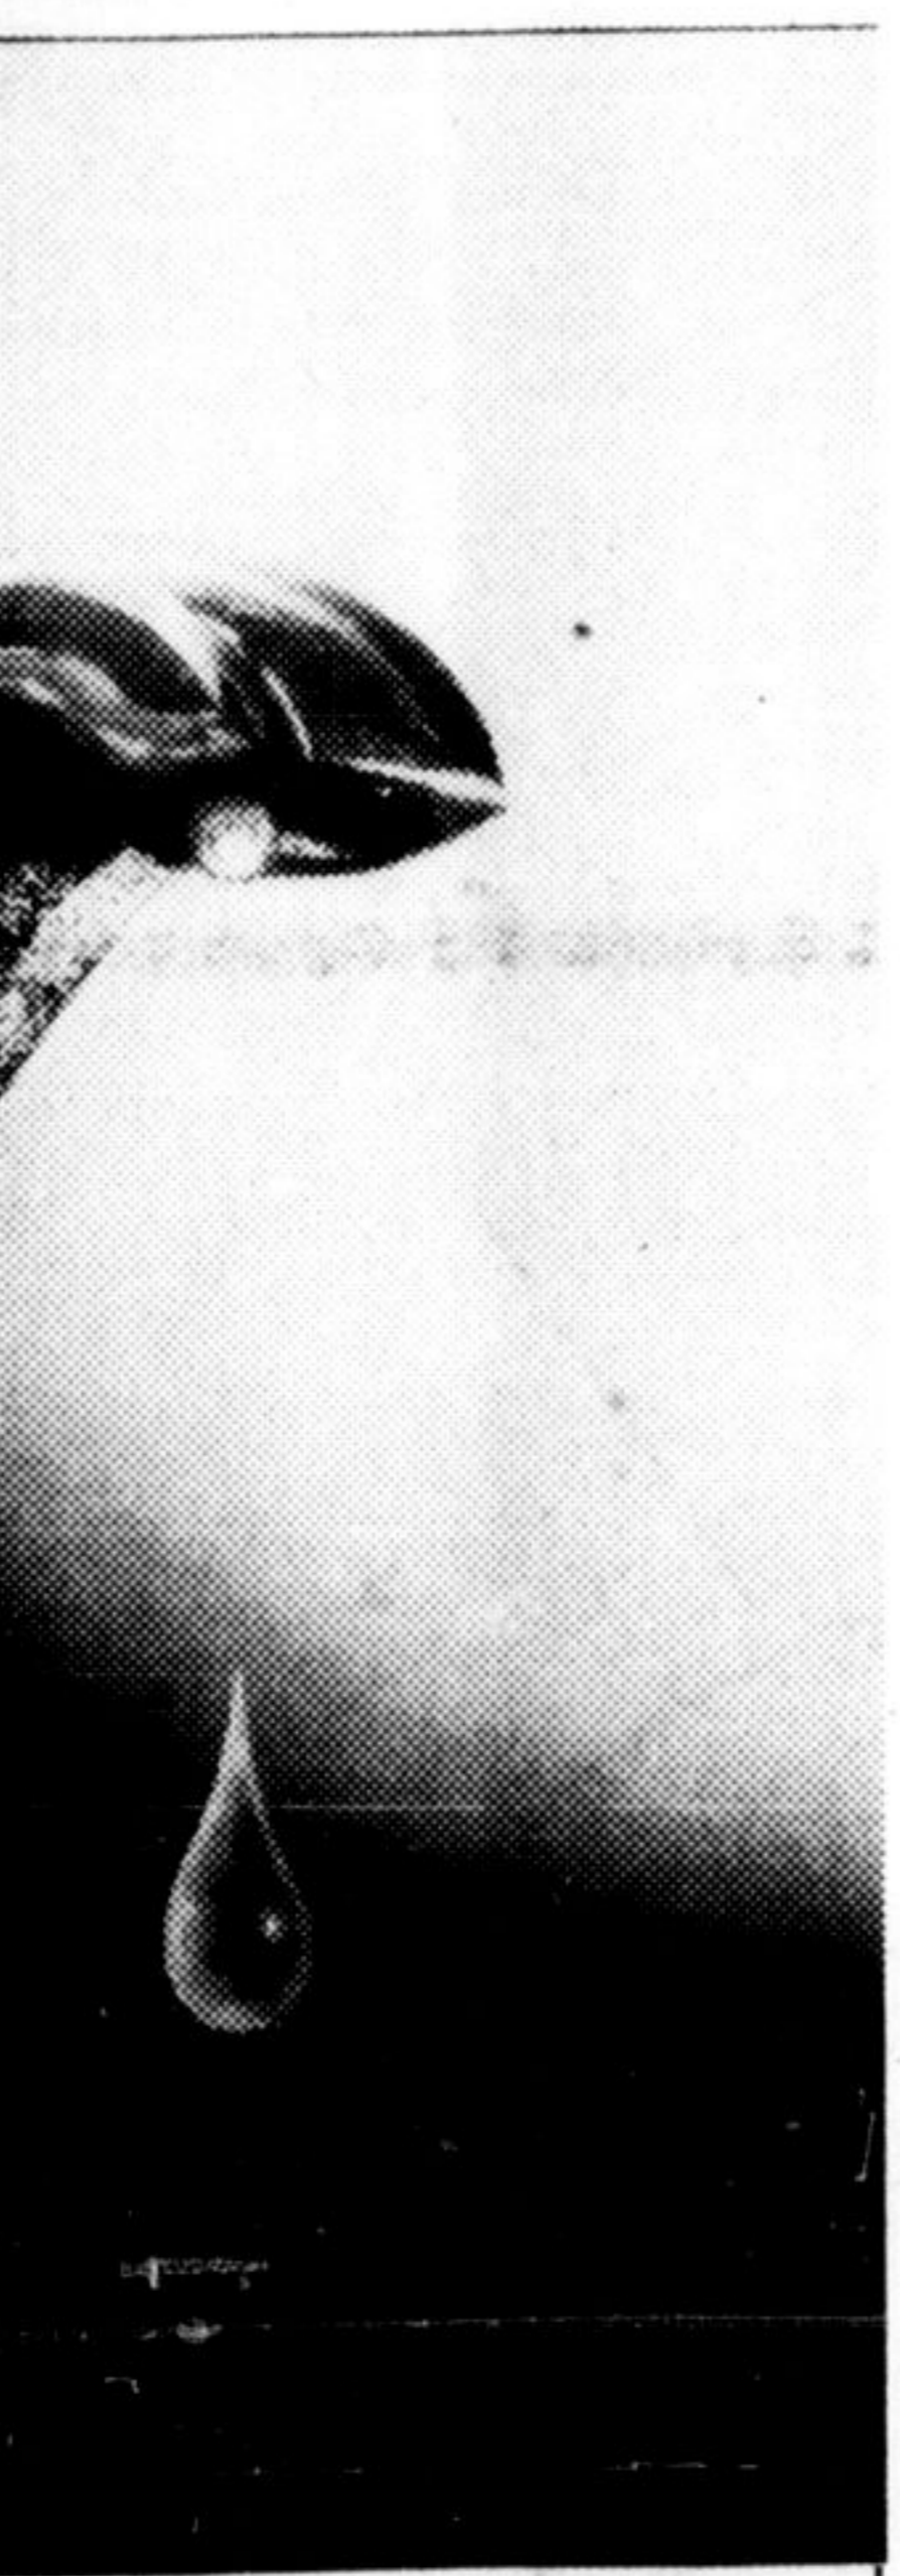

Some people seem to be able to "hold their liquor" better than others and this excuse is often aired by those who don't want to believe that a few drinks can seriously impair driving ability. Because of body weight, fatigue, emotional condition or a number of other reasons, individuals may show different effects from drinking the same amount of alcohol, says the Ontario Safety League. However, they may be equally impaired.

How many energy leaks are there in your home?

At one drop per second, a dripping hot water tap can waste about 175 gallons of hot water each month. The electricity required to heat that water would keep a 60-watt bulb burning continuously.

Poor insulation...a faulty heating system...inefficient use of appliances...all cause energy leaks in the home. This can increase the cost of running a home—and waste Canada's precious energy resources.

It makes good sense to use electricity and all forms of energy wisely. And that includes stopping those energy leaks.
