CAR BUYERS REPORT:

"But the betting in Canada is that prices will be hiked early next year . . ."

AND PERHAPS AT REGULAR INTERVALS DURING 1977. We guarantee all our prices till Dec. 31st

Automotive News (the United States publication of North America's auto industry) is well respected for accuracy in reporting. Their statement on prices, is of course, on a speculation. So... here's what participating GM dealers in Toronto and surrounding area are prepared to do about it. Hold the price. Today's prices

are the prices you'll pay when you take delivery by Dec. 31st this year. A big supply of cars and trucks. We've gone all out. Loaded up with substantially more cars and trucks than normal for this time of year. If you don't happen to see what you want, more are on the way, for December delivery.

Wide range. We GM dealers offer more choice of models than our competitors. There's just got to be the one you want, if you come in soon. The cars most people want. Designed for our changing world. Our 1977 cars are newer than new, in style and size. The automobiles of the future. Today.
