

PARENTS AND STUDENTS roamed around W. I. Dick Middle School Monday evening, when the recently expanded school held an open house. It opened 20 years ago as a junior school but this fall was transformed into a middle school for

grades 6, 7 and 8 when several classrooms, shops, library, gym and music room were added. This view is in the student concourse in the centre of the new section.

MODERN GYMNASIUM facilities were added to W. I. Dick School when it became a middle school this fall. Open house visitors are shown on the stage and gym floor.

Two advance polls planned

Two advance polls will be held in the next few days. The first will be Saturday, Nov. 4 and the second Tuesday, Nov. 7. Times of both are 9 a.m. to 8 p.m. Polling stations for the two days will be at the Boyne Community Centre on Britannia Rd. in Ward One, the town hall in Ward Two and the Campbellville Lions Hall in Ward Three. Anyone who feels they won't be able to vote on the election date of Monday, Nov. 13 is asked to cast his ballot. Eligible are people who are on the polling list. They may ascertain their right by going to the clerk's office at the town hall.

Survey results show region is key issue

Halton regional government, Ontario's nuclear program and education were among the key items to receive strong views from members of the Halton Liberal Association, as the result of a survey conducted this summer.

Response to the questionnaire formulated by Julian Reed, Halton Liberal MPP, indicated nearly 100 per cent in favor of the repeal of regional government, according to Mr. Reed.

The survey was given out to nearly 100 members of the organization, he said, and approximately 30 responses were received.

Further expansion of Hydro's nuclear program was strongly rejected with a 75 per cent opposition response to the issue.

"I was interested there was that much opposition," said Mr. Reed, adding he felt "people have certain fears and concerns" with nuclear development.

Ontario's present program contributes 27 per cent of the electricity consumed in Ontario, according to Mr. Reed.

Other responses indicated dissatisfaction with the present state of education in the province, he continued.

More felt the present government did not fulfill its purpose in devoting more energy to core subjects.

On the issue of resource recovery, Mr. Reed received nearly 100 per cent support for that means of waste disposal as opposed to landfill sites.

Julian Reed

"I felt there was a strong opinion, but I did not realize it would be that much," he said.

Mr. Reed continued that such answers reinforced some of his own concerns and said he would continue to fight for resource recovery over landfill sites.

On the question of whether the Niagara Escarpment Commission should be abolished or amended, the vote was split, he stated.

"There is a great upset with

the NEC," he said, adding that nobody likes the situation at present.

Members were also asked if they would favor religious education counting as a credit subject. Response indicated little support for that idea, said Mr. Reed.

The purpose of the survey was to find out what the association is thinking about some of the key issues, explained Mr. Reed.

The response from the members would then be used eventually in campaign material, he added.
