

Facilities Almost Unlimited in Halton's Home for Aged

HALTON COUNTY'S SENIOR RESIDENTS are well taken care of at the Halton Centennial Manor, over 1,000 guests learned over the weekend when they toured the new facilities provided for aged citizens in the new addition to the Manor. Above, a few staff

photos show some of the newer additions to the building. In the upper left corner is the circular chapel, designed for use by all religious denominations. Below that is a view of the auditorium with its large stage and seating capacity for 200 people.

—Staff Photos

In the centre is a typical bedroom in the normal care wing. On the right is the Manor barber shop, where men residents can get their hair cut without leaving the building. There is also a small

beauty parlor for the ladies. Below the barber shop picture is a nurses' station in one of the new wings, showing a few of the staff members working there.

Smaller Dining Room Serves the Infirmary

ELECTRIC HOME HEATING

gives you room-by-room comfort control!

For new homes...added rooms...hard-to-heat areas

If you are planning a new home, you can heat it safely and automatically with the controlled, clean, instant heat that electricity provides. Electric home heating is easy to install, economical to maintain and provides comfortable, even temperatures that seldom vary more than a few degrees from ceiling to floor. With electric heating, each room is individually heated and has its own thermostat which can be set, by you, to suit your own personal comfort. Whether you wish to heat one room or your whole house, before you build or remodel, consult your electrical contractor or your local Hydro about electric home heating.

To get more out of life... get the most out of electricity.

We offer FREE Electrical Maintenance on ALL Electric Hot Water Tanks
