FACTORY REBATE

from Carrier

HOW IT WORKS:
No Matter how cold the outside air, there's always heat in it. The heat pump captures that heat and pumps it indoors. During hot weather, it pumps heat out of your home.

And it can be added to your existing forced air heating system.

*Direct Factory Rebate on a Total Carrier Comfort System (Heat Pump or Central Air Conditioning, Gas Furnace, Electronic Air Cleaner and Humidifier). Equipment must be installed and paid for by January 31 '81 to qualify for rebate.
