# Medical history on a microchip offered in Halton to save lives

A victim of a car accident is rushed into

emergency, bloodied and unconscious. Although the attending physician has never seen the man before, he knows the victim has a heart condition, is on medication and is allergic to penicillin.

The doctor is not a mind reader or a psychic. The patient keeps his entire medical history in his wallet. A single plastic card embedded with a microfilm chip stores this information.

prise, introduced this emergency identification system in the Region of Halton recently. The microfilm chip no larger than a thumbnail is coded to identify the carrier which aids in ensuring

The Medical Data Bureau, a privately owned enter-

More than 100 pieces of information, and a checklist for illness can be retained in the tiny chip. A second card is available to heart patients providing a record of their latet electro-cardiograms. Within minutes of a patient's arrival at a hospital

confidentiality of the stored information.

his entire medical history can be seen on a microfilm reader. If such equipment is not available at the hospital, the card lists a toll free number in Kitchener where the information can be obtained 24 hours a day, seven days a week from the company's central

In its two-year history, the Medical Data Bureau has grown to include a chain of 23 offices throughout

A family membership fee of \$36 and \$18 for singles is good for three years. Senior citizens over 60 pay the

New information can be added during the three

year period for \$2.50. About 16,000 cards have been sold in Ontario to Burlington branch president Bob Hatcher said the

fee only once for a lifetime membership.

# response from hospitals, police, fire departments and industry has been enthusiastic. Police workshop for service clubs
