

Ward Two race ...

(Continued from Page E3)

can be adequately addressed only by a council composed of councillors who care; of councillors who are willing to work hard; of councillors who

know how to get the job done.

I am willing to address these concerns as a councillor and request your support on Nov. 10.

FRED de REE

In my view the most important issue facing this town is its position within the Region.

Whereas it can be argued that Milton should leave the Region altogether, with the present political make-up at Queen's Park this may be near impossible. It would therefore behoove us to try and get a better deal within Regional Government.

This would mean spending more regional taxes collected in Milton right here in town, stretching the gamut

from road maintenance through social services.

The other issue of importance would be police protection, or rather lack of it. The present situation may be ideal in the Police Commission's view, however I believe that the citizens of Milton deserve more than a token squad. I would also endeavor to try and keep municipal taxes to a reasonable level by looking at ways to get more out of the same tax dollars. We don't always have to pay more to get more.

MARIA REIS

Efficient, firm and concerned are some of the requirements for the next team that's elected as your council.

Decisions won't always be easy. Questions must be answered. All alternatives must be looked into. Plans must be made carefully. Will today's action jeopardize the future? Is today's action enough for the future?

Action must be taken. Future town growth in all aspects is a major concern. Retail harmony

and growth is a major concern.

Adequate police, fire, and transportation services are major concerns. A committed council is required.

Plan for the future, but don't ignore our present residents.

I'm asking for your support to make me part of that team. I will remain involved in community events and listen to your concerns. As part of your team, I will work for you.

LYNN SMITH

In selecting a new council, I feel it is important to have a mixture of old and new, experience and enthusiasm.

There has to be a balance for this council to than the separate in-

dividuals themselves, is the ability for the council to function as a team.

I'm looking forward to joining the team. Remember to vote, Nov. 10.

Six in Ward Three rural seat contest

ROY GALLOWAY

In an attempt to discover the reasons behind the disproportional municipal tax increases levied on Nassagaweya residents by the Region, I attended many Milton Council meetings for the past two years. What I found was not a lack of alternatives, or even a lack of viable solutions. What seems to be lacking is a sufficient presentation of the facts on many important issues.

An observer of a council meeting quickly realizes that the facts available to the councillors are not completely revealed to them. Facts are lost on issues through the editing process which all councillors use, as they sort through the

facts as they are presented to them in brief form. Additional facts are lost to the public through the in-camera procedure of many committees as they attempt to reach a single proposal to put before council. This procedure weighs facts without public presentation.

My goal, as a councillor, would be to bring the facts on the issues to the people they affect. As a councillor, I would attempt to keep people abreast of the issues.

As a councillor, I would act as a Nassagaweyan and do anything in my power to have Nassagaweya return to its former debt-free self. Thank you.

ROBBIE LAIRD

To the residents of Ward Three:

There is, in my view, only one issue for us in this election. Do you wish to be represented by councillors who favor the status quo whereby rural taxes are used to subsidize urban expenditures? Or, on the other hand, do you wish to regain control over the spending of the local tax dollar?

I believe the latter can be achieved by a restructuring of the region in which Ward Three is made a separate community, i.e., basically the old township of Nassagaweya. This would be a community rural in nature. The council of the community would be aware of and could respond to community needs first, and to regional needs where justified.

Such a proposal will not

DON McMILLAN

be easily accepted by any of the present levels of government and a strong vote is required. If you believe in my approach, I sincerely ask for your support at the polls.

There are four important issues that will affect Ward Three during the next two years:

TAXES—The results of weeks of effort on my part were sweeping

changes as follows:

1. This ward is now paying a more equitable share, (a reduction of over \$200,000. in 1980 and

This November 10th
Count Me In!

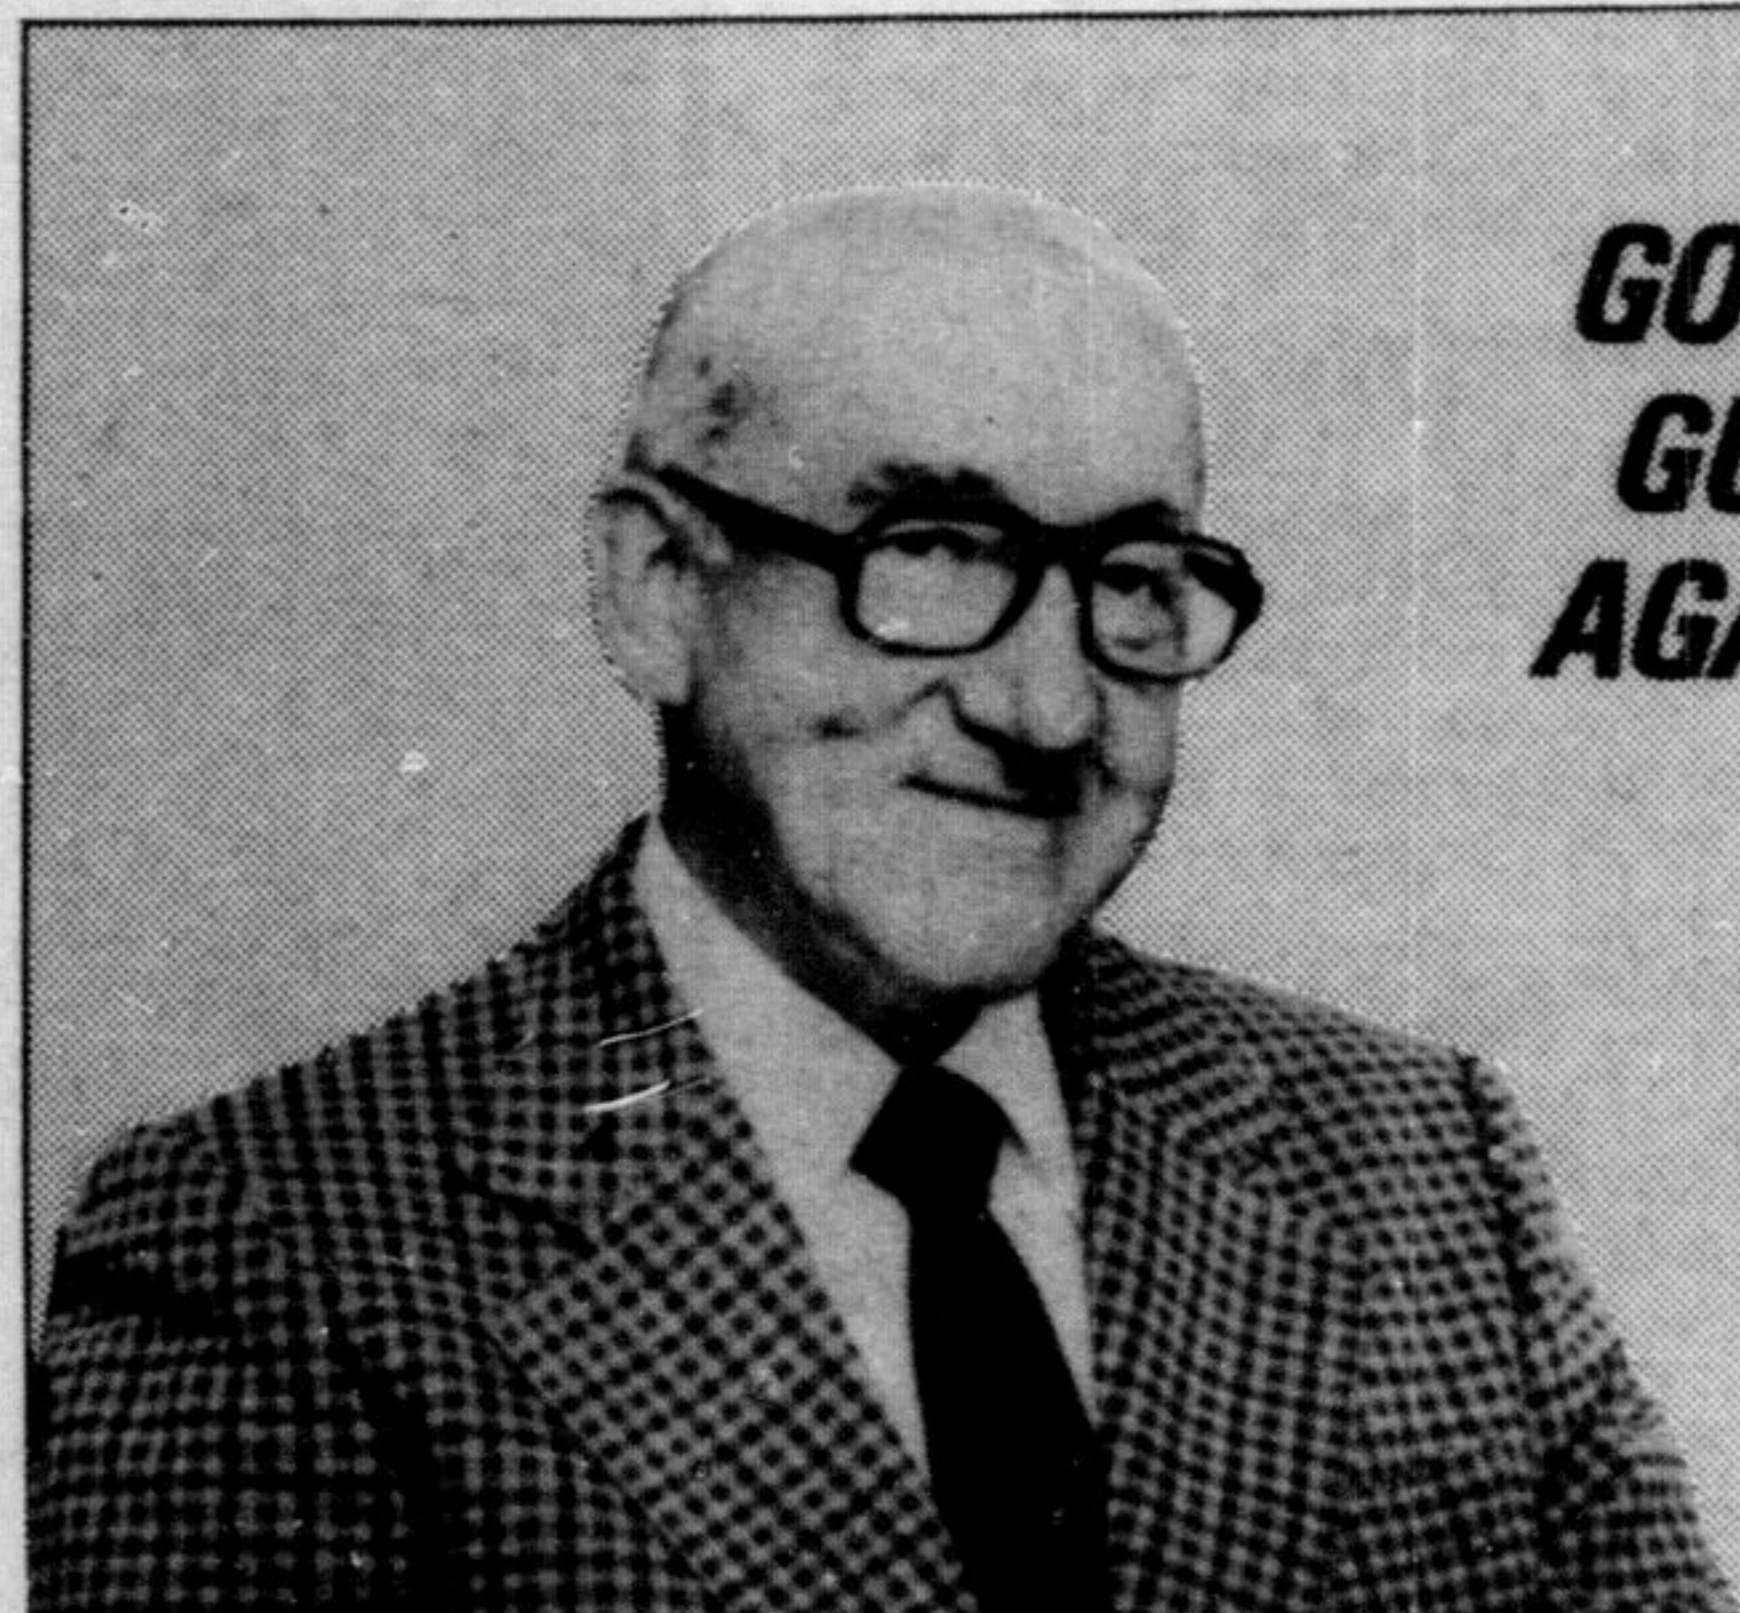

I listen to people's concerns daily as a matter of course. If elected, I intend to do everything possible to make the town of Milton an even better community in which to live. Please "count me in" this November 10th!

LYNN SMITH X

RE-ELECT
W.C. (BILL) ROWNEY

GO with GUS AGAIN

Two years ago, I ran on a platform of four points based on the response of the citizens of the Town of Milton:

1. Under-pass at Main and Ontario Sts. - Approved
2. One unit of Fire Dept. located south of railroad tracks. - Approved
3. Crosswalk Safety Program - Approved, and
4. Road name duplication - Defeated, but back again.

1981-82 Platform is as follows: and again, based on the response of the citizens of Milton:

1. Amendment No. 7:
 - provide a better industrial base to hold residents' taxes down
 - provide employment opportunities for the people
2. Management Study
 - needed to look at the structure and the effectiveness of dept. heads. The criteria of their positions and how they are fulfilling their requirements
3. Recreation Facilities
 - including an indoor swimming pool
 - population warrants facility
 - senior citizen and youth drop-in centres
 - a viable return for your tax dollar
4. Sidewalk and Road Program
 - Some sidewalks have to be replaced, other areas require sidewalks. Want funds increased for this program substantially.

Regionally, I am a member of the Planning Committee, Health and Social Services, Chairman of the Building and Property Committee, Sewer Rate Committee, and the Manor Committee.

ACCOMPLISHMENTS AT REGION:
SAVED — \$63,500 on rental-leasing of space in Georgetown for use of Regional Depts.

Take great pride in being a partner of Henry Stanley (Agricultural Representative of OMAF) to set up Halton Agricultural Advisory Committee to provide a forum for farmers.

Gus Goutouski
