RE1

This lovely century farm is something quite different. Set on 93 scenic acres, it includes two streams running across the full width of the property. There is also a bank barn and a four-bay heated garage. An excellent property and only minutes from Highway 401.

## A rare gem

This beautiful century farm is set on 93 very scenic acres (includes 20 acres of mature clean bush and the balance is good, arable land) with two streams running across the full width of the property.

The stately 1857 Irish stone house has the character and charm of yesterday and the conveniences of today.

It has been carefully maintained throughout and features a traditional centre hall, formal living room, separate dining room with fireplace and built-in china cabinets, large family room with cathedral ceiling beams and wood burning stove, a large country kitchen with loads of cupboards, five good sized bedrooms, two baths, a finished rec room and original pine floors.

Other little extras include? wainscotting and small paned windows throughout.

A bank barn, in very good condition, adds to the beauty of this early Canadianna and features four large boxstalls.

The four-bay heated garage is ideal for the person requiring a hobby shop.

For more information, please call Denzil Lawrence at A.E. LePage (Ontario) Ltd. at 878-8101.

## realtor's choice

By LINDA KIRBY

The large, formal living room faces south, allowing for plenty of light.

This is one of two dining rooms, and offers ample room for those special occasions.

The huge family room, with cathedral ceilings, beams and wood burning stove is an ideal spot for parties or family gatherings.
