

## Region gives five students summer jobs

Five students will have summer jobs and Halton's planning department will have extra work accomplished thanks to a federal make-work project.

The region has received \$14,038 to cover the salaries of the five students who will be employed for 16 weeks starting May 16.

According to a report from planning director Rash Mohammed they will be working in the rural, environmental, transportation, population and regional planning areas.

### Rental Survey

A semi-annual survey of rental units in Milton and Halton Hills may be re-instated

## region briefs

by the federal government.

Members of the region's planning and public works committee were told last week officials of the Canada Mortgage and Housing Corporation are considering reviving the survey.

That action follows a regional request for the information which is helpful in the planning process.

Support for the survey has also been

obtained from Halton, MPs Otto Jelinek, Bill Kempling and John McDermid.

### Expropriations

Expropriation actions have been started by Halton Region against four Derry Rd. residents whose land is needed for the widening of the road.

Members of the region's planning and public works committee agreed last week to start the expropriation process even though two of the residents have signed agreements of purchase with the region.

In total, according to a report from public works director Bob Moore, 11 pieces of land in the area are required.
