Hints**

A throwaway foil roasting pan is a great work saver at holiday time. It won't buckle or sag if you put a cookie tin under it.

Line the freezer basket with net from onions, perhaps to keep small items from falling out.

Baking soda and water paste (and elbow grease) will remove mildew from a shower curtain. If the room is well ventilated, you can add some bleach to make the job easier.

Keep metal garbage cans from rusting out—paint them, inside and out, on the bottom and a few inches up the sides.

To bring up the nap on velvet or velour and get rid of wrinkles, toss in a low-heat dryer with a couple of damp towels. Remove PROMPTLY.
