Comets can't mount win string

Continued from pg. B2
Chinguacousey then bouncing back to earn a 3-2 decision over Dundas.

In both games Comets continued to show improved team play. On Sunday, they quickly jumped ahead 3-0 on goals by Dave Shaw and two by Chris Austin. However, they were not able to hold the lead and Ching fought back with three third-period goals in a span of one minute to send McCuaig to defeat. The game featured good two-way hockey with Shawn Carnegie playing a good game in the Comets nets.

On Monday the Comets continued their tough defensive style of play in a game that was marred with penalties. Milton took 1-0 and 2-1 leads only to have Dundas come back each time to tie the game entering the third period. Paul McCutcheon and Tracy Harding with the winner both had a goal and an assist to lead the scores. Steve Scannell added a single marker.

Movers still moving with two more wins

A four-goal outburst in a four-minute span in the final period made up for a sub-par performance by Scannell Movers major peewees as they came from behind to edge Dundas 5-4 Saturday.

Dundas took period leads of 1-0 and 3-1 upping that to 4-1 in the third period before the Scannell crew got moving.
Shawn Healey triggered a Kevin Moffatt offering with time running out in the second period to initiate the scoring and draw the Movers into a 3-1 deficit.

Healey scored his second of the game as he completed passes with Kyle Hasselfeldt and Robby Mifsud to ignite the Mover uprising.

Stephen Schoffer got help from Lee Finch and Jason Blanchard for their third tally two minutes later. Greg Harris tied the contest 30 seconds later from Mifsud and Healey.

A minute after that, Blanchard fired the winning goal as he accepted a Finch pass on a play started by Hasselfeldt.

Sunday afternoon, the Scannell squad

fired four goals in the second and third periods to bomb Ancaster 8-0. Chris Newell picked up the shutout.

Richard Bray and Healey each scored twice to lead the Movers while singletons

were earned by Scott McLeod, Mifsud, Hasselfeldt and Blanchard.

Curtis Chegwin, a borrowed defenceman from Tier II, earned a pair of assists while Todd McLeod helped out three times.

ENVIRONMENTAL ASSESSMENT LANDFILL COMPONENT OF SOLID WASTE MANAGEMENT

YOU ARE INVITED TO A MEETING TO DISCUSS THE PROCESS THAT WILL BE USED TO IDENTIFY POTENTIAL LANDFILL SITE IN HALTON

The consultants preparing the Regional Municipality of Halton's Landfill Component Environmental Assessment have identified candidate areas in Halton that are environmentally, socially and economically suitable for further consideration as appropriate areas within which to locate a future landfill site or sites. These candidate areas are outlined on the accompanying map. The consultants are about to begin the next stage in the study where the candidate areas will be further investigated to identify candidate sites. The candidate sites will be subject to more detailed study to select a preferred site or sites for Halton's landfill.

Residents of Halton who are interested in reviewing and commenting on the process that the consultants have developed to identify candidate sites within the candidate areas, are invited to attend any of the following information centres:

Halton Centennial Manor, Auditorium
185 Ontario Street
Milton, Ontario
Wednesday, November 23, 1983

Lester B. Pearson High School, Cafetorium
1433 Headon Road,
Burlington, Ontario
Thursday, November 24, 1983

Gordon Alcott Arena, Community Room
221 Guelph St.
Georgetown, Ontario
Tuesday, November 29, 1983

The public is invited to attend any of these Information Centres at their convenience between 4:00 p.m. and 9:30 p.m. The consultants and Region of Halton staff will be available to answer questions on the study and the site identification process at any time during the hours noted above. A brief presentation on the site identification process is scheduled for 7:30 p.m.

HOLD YOUR BREATH AND READ THIS.

If your chimney is defective, your house may be feeling just like you do right now. Because heating systems take in oxygen and release carbon dioxide. Just like you do.

But when a furnace can't get enough oxygen, or carbon dioxide can't escape, your house can't "breathe." Carbon monoxide can be created and that is a dangerous situation for you and your family.

A clean and clear chimney is necessary to vent your furnace properly.

Here are some warning signs of chimney deterioration:

- loose mortar and bricks
- white powder or water stains on chimney above roof
- water stains at the chimney's clean-out door.

YOU MAY NEED A CHIMNEY LINER TO PREVENT EROSION OF THE MASONRY.

For your safety, and for your peace of mind, have your heating system and chimney inspected and cleaned annually by a qualified contractor. You and your house will both breathe a sigh of relief.
