

# What I want to be when I grow up

## I would like to make a T-Rex

When I grow up I would like to be a paleontologist so I can learn more about dinosaur fossils.

I would dig for bones and then put the bones together to make a skeleton of a T-Rex or another dinosaur. When people go to the museum they would see my work.

*Emily Foster*  
Grade 1, Hitherfield School

## Make cavities go away

When I grow up I would like to be a dentist. I would be able to fix people's teeth and make the cavities go away by giving them fillings. If they had crooked teeth I would give them braces. I would make sure that everyone's teeth are healthy and clean.

*Peter Soliman*  
Grade 2, Hitherfield School

## Want to be a hero

When I grow up I would like to be a veterinarian.

I would like to be a vet because I could help pets get better when they are sick or hurt. I will cure animals of sicknesses, like cancer, and help them when they're having babies or when they're been run over by a car.

I could help dogs when they have puppies and cats when they have kittens.

I could be a hero!

*Alexandra Grace Russell*  
Grade 1, Hitherfield School

## One giant step for mankind

When I grow up I would like to be an astronaut.

I would go and try to find aliens. I would go to the moon and if other astronauts came we would build a base on the moon and try to make a cord from the moon to the earth.

People could then walk back and forth from the moon to earth. One giant step for mankind!

*Sam Field*  
Grade 1, Hitherfield School

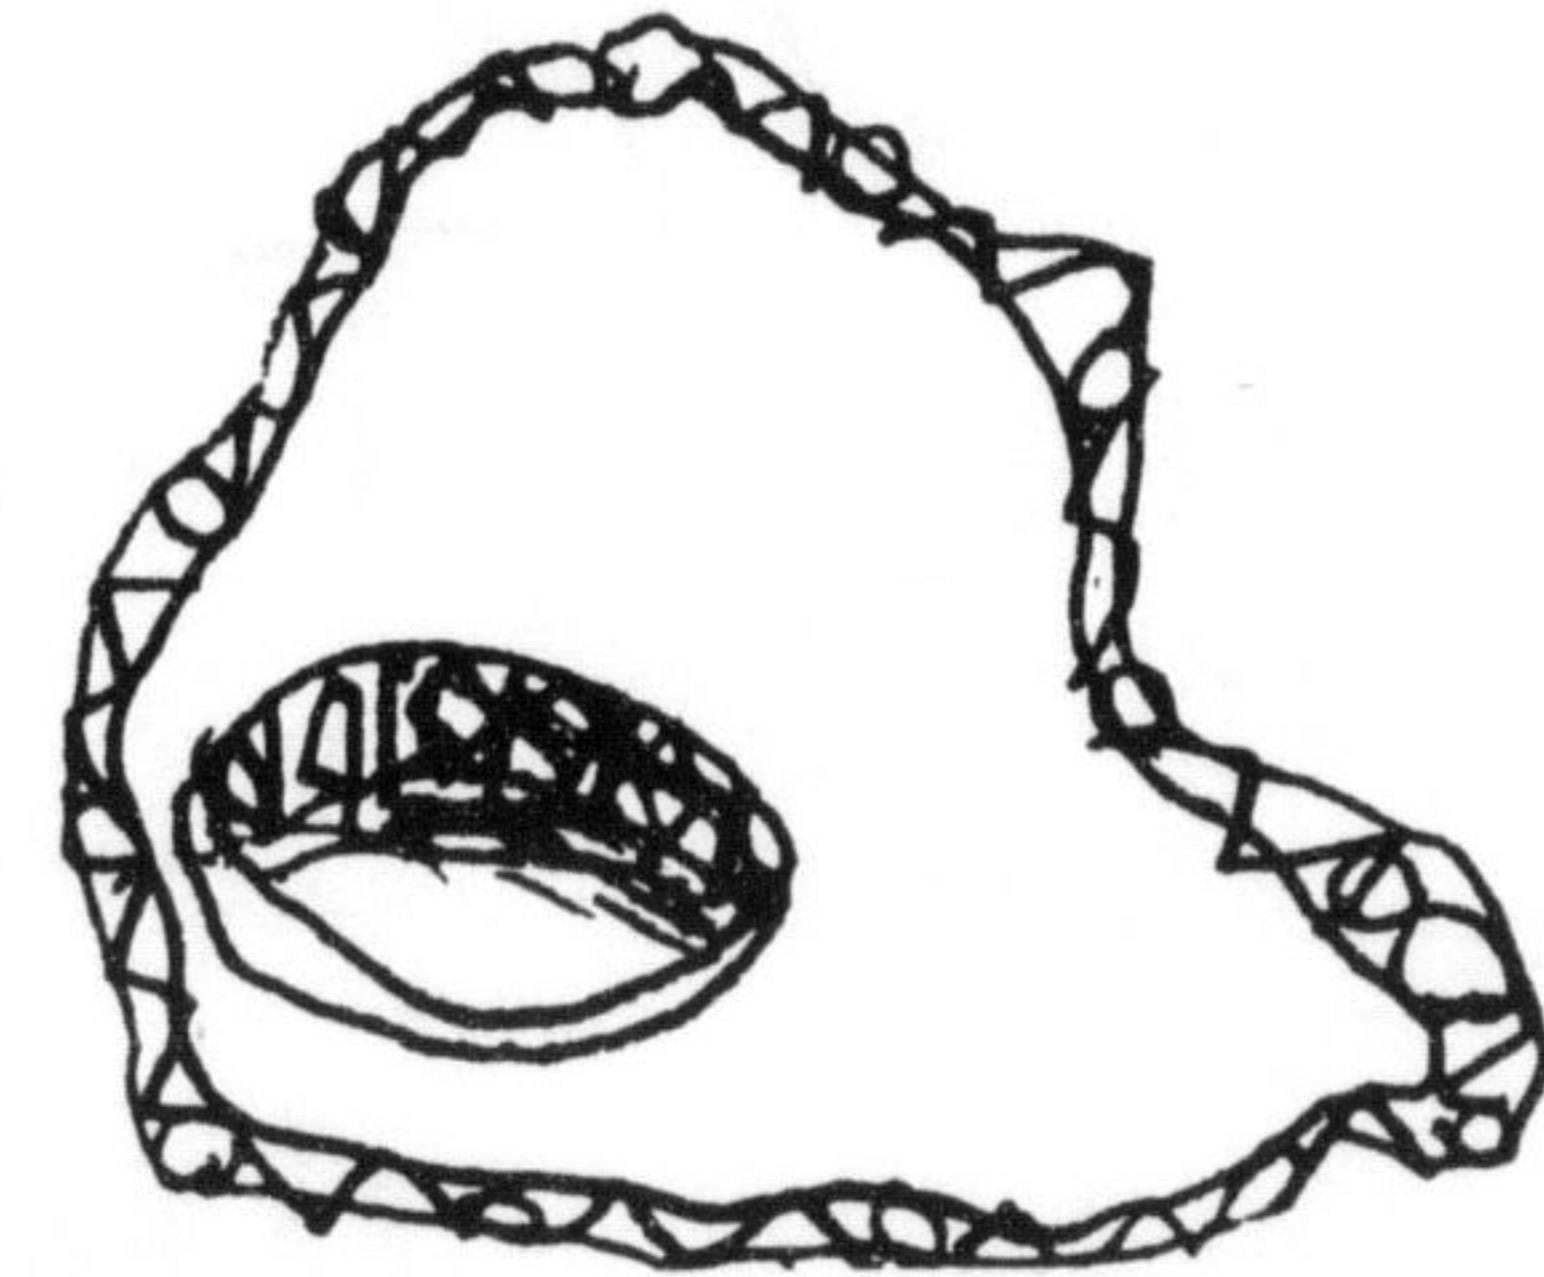

## Catch aliens

When I grow up I would like to be an astronaut. I would go to space stations and take pictures of the nine planets and also the moon.

I would go to the moon and catch aliens to see how they behave. I would return to earth and tell everybody about what I saw.

*James Viana*  
Grade 1, Hitherfield School
