

What I want to be when I grow up!

Working with animals

I want to be a veterinarian when I grow up.

I would really like to work with zoo animals. I really like animals and I think it would be fun and interesting to help the monkeys, tigers, pandas, dolphins and polar bears.

It would be fun to work with lots of different veterinarians. The zoo would be really big. It would have lots of trees, grass and land.

Sports and big money

When I grow up I want to play sports. I don't really know what sport I want to play, but playing a sport seems to be me.

It's like getting big money for having fun. You get a million dollars for getting a home run in baseball and about a thousand dollars for scoring a goal in hockey or soccer. I think I'm sure I'm going to play sports when I grow up.

I love them, I play them and people say I'm really good at sports. I think I'm good too.
