Still Unsure About What To Do With Your RRSP This Year?

The deadline for making your 1997 contribution is only A FEW DAYS away. Will you take advantage of one of the few tax breaks available to you? An RRSP can be the foundation for a comfortable and secure retirement. More importantly, will you make your own investment decisions? - and hope you made the right choice, or will you seek the advice and counsel of a professional planner? - who can advise you now on the alternative and guide you towards a successful retirement plan.

This is not about RRSP'S !

In this space of the past several weeks, I have discussed various strategies regarding RRSP investing. I hope the information helped. The topics included diversification, dollar-cost averaging, foreign content, borrowing for your contribution, market volatility, asset allocation and labour sponsored funds. If you missed any, please ask me for a reprint.

It's About Improving Your Future

I would be glad to discuss all your RRSP choices. As an independent financial planner. I study all types of investment products and assess their suitability for my clients - people from all walks of life, each with very different circumstances. Initial consultation at no charge; and of course any discussions will be completely confidential.
