TECHNICIAN

FLIR Systems, Inc. uses cutting-edge technology to develop and deliver innovative imaging solutions. Beginning as a pioneer of airborne, night vision infrared cameras, we have built upon our core imaging technologies. Today we are an established leader in applying thermal and visible light imaging systems in the commercial, public safety, broadcast and image analysis markets. Our fantastic success is the result of the outstanding talent and commitment of our employees — people just like you! They're doing the best work of their careers by using cutting edge technology to define and develop our products, and to market and sell solutions that thrill our customers.

**Dare to IMAGINE...
The world's largest infrared imaging company
Join us, and... EXPERIENCE IT!**

Senior Service Technician

This position will involve the repair and calibration of Infrared Imaging systems and video monitors. The successful candidate will have a strong electronics background with proven electrical and mechanical aptitudes; be experienced in troubleshooting to a component level, in the probing and reworking of surface mount technology, able to use and operate digital voltmeters and oscilloscopes, and knowledgeable in both hardware and software in a Windows environment for use in troubleshooting peripheral devices. Strong interpersonal and verbal communication skills combined with a successful customer interface are required. This position will be completely self directed, requiring strong self management and self motivation. Lifting requirements are up to and including 40 pounds. Qualified candidates should possess 3 to 5 years of experience repairing complex electro-mechanical systems.

What we offer is a highly Competitive Compensation Package, Exciting Challenge within a Progressive Corporate Culture, Cutting Edge Technology, The Latest in Development Tools, Technical Growth with the opportunity to lead, empower and team with the industry's most talented professionals in the development of state of the art products.
