

Paul Scherer

**A message
from Canada
Day committee
chair Paul Scherer**

This year's Canada Day celebrations are the result of substantial work by members of the organizing committee, with whom I have had the pleasure of serving since mid-May.

Complimenting their efforts has been a commitment from the Town of Milton, the source of a generous donation to make our celebrations truly memorable.

The community is blessed with people who give of their time and energy for a number of causes, without question of compensation. Like so many others, I am deeply appreciative of their efforts, and honoured to have in a small way served with them.

Paul Scherer
Chair
