THE CANADIAN CHAMPION

Milton needs a child care centre just like this one

Dear Editor:

I am writing this letter to *The Canadian Champion* to ask you to print a story I have about the wonderful place I work at in Burlington called Love and Learn Children Centre.

It is definitely not your typical child care setting as it has one big advantage in that it is Christian-based. I have been employed with Love and Learn for about two-and-a-half years

now, and the one important thing I can say is that it's a great beginning for children whose families live for Jesus Christ, Our Saviour and Father.

The first time I walked into Love and Learn was for the sole purpose of getting a job. I walked through the front doors and I felt an immense amount of love for the children who were in the centre.

The teachers were smiling and laughing with the children, there was lots of music in the background and the real important thing was that the children were playing happily and harmoniously.

I guess now I can come to the real reason why I wrote this letter. It's to talk about the end of our lease and our search for a new location for Love and Learn. The church facility that currently rents their space to Love and Learn has said our lease is up in July 1999.

Not very happy news for my boss to hear considering Love and Learn was something she started 11 years ago. So we are currently seeking a new rental location for our centre to continue God's work for these precious children we so love and care about.

I feel Milton so desperately needs a centre like

this as we have many families in our community who love Jesus and want their children to learn so much more, aside from their instruction at Sunday School.

I do hope someone out there could maybe lend us a hand. Finding a space to relocate would be a start and then the rest could eventually follow.

If you have any questions or would be willing to help our centre, please call us at 336-8648.
