

Bus blues sung again

• from BONE on page 11

He suggested that a meeting be held between Stock, council and Town staff in order to hammer out a workable system.

The onus should be on Stock to come up with a solution, said Mr. Malboeuf.

"I live on Woodward (avenue) and that bus goes by every hour with no one on it

but the driver," he said. "Let Stock sell me. Convince me we should use your service."

Councillor John Challinor disputed Mr. Malboeuf's take on how many people use the transit service.

"I know the numbers are higher," he said. "There's a hell of a lot more than 150 to 200."

ADVERTISEMENT WINE COOLERS

Wine coolers are a fairly new item for my industry, but are extremely popular on the commercial market. At Hogshead we have been making wine coolers for 3 years now and have had great success, they get more popular every year. We offer 21 types of coolers for our customers to make. Some of the types to choose from are Hard Lemonade, Cranberry Hard Lemonade, Raspberry, Peach, Wildberry, Strawberry Banana Breeze, and Tangerine Tango. As well as alcohol based coolers we can also do all 21 flavours into non-alcoholic carbonated beverages. The cost of the wine based coolers start at \$2.75/litre while the non-alcoholic ones are \$1.25/litre. There are two ways to do the coolers; the first is to choose the type you want (such as a Hard Lemonade) and bottle it. The second way is to do a variety of types, although this limits the number available, it widens the variety you will be able to serve your guests as well as yourself. Making your own coolers at Hogshead Brew Club is inexpensive and easy. It takes only 5 minutes to make and all summer to enjoy.

There will be several of the non-alcoholic coolers to try and bottle in the near future. Drop in for a sample of summer!

Please watch for our next column appearing Friday, May 28th.
