Mark Curtis and friends will perform at an outdoor benefit concert in Acton Sunday.

Milton's popular singer will offer up his musical stylings in presenting 'Songs on the Water'.

The concert will be held at 3 p.m. at Robert's Park — located on Dublin Line, a

kilometre north of Hwy. 7. Organizers are asking concert goers for a minimum donation of \$10 per car.

Concert goers are also asked to bring lawn chairs.

Proceeds from the show will go to Rose Cherry's Home, a local hospice for terminally ill children.

The show is being sponsored by Archer's Poultry Farm Ltd., Wallenstein Feeds and Supply Ltd. and WordSong

Communications. The rain date is June 27. For more information, call 876-3379.

Highway 407 West - Commuter Parking
Lots and Truck Inspection Stations**

THE STUDY

The Ministry of Transportation of Ontario (MTO) has initiated a Class Environmental Assessment (EA) and preliminary design study for four commuter parking lots and two truck inspection stations on the proposed Highway 407 West. The proposed locations for these facilities are:

Commuter Parking Lots: Dundas Street (Regional Road 5, formerly Highway 5); Appleby Line; R.R. 25 (formerly Highway 25); and Trafalgar Road.

Truck Inspection Stations: east of Tremaine Road (westbound); west of Tremaine Road (eastbound).

BACKGROUND

The proposed Highway 407 West was exempted from the provincial *Environmental Assessment Act* in the 1970's and early 1980's. These exemptions, however, did not include ancillary facilities such as commuter parking lots and truck inspection stations. Commuter parking lots are proposed along Highway 407 West to provide for the safety and convenience of car-pool users. Truck inspection stations ensure that trucks using the highway system are being operated safely and in accordance with regulations. Proceeding with the environmental assessment for these facilities at this time complements the Province's recent privatization of Highway 407.

THE PROCESS

This study will follow the Provincial Highways Class EA process approved for projects of this type. There is opportunity throughout the Provincial Class EA process for public input. If any person feels, after consulting with project staff, that serious environmental concerns remain unresolved, it is their right to request that the project be subject to an Individual Environmental Assessment. The decision rests with the Minister of Environment. With the exception of personal information, all comments will become part of the public record.

PUBLIC INFORMATION CENTRE

The Ministry of Transportation invites members of the public to attend an Information Centre to view and comment on the proposals for these projects. Ministry and Consultant staff will be present to answer questions, discuss the study and receive your comments.

Date: Tuesday, June 22, 1999

Location: Auditorium, Halton Regional Offices, 1151 Bronte Road, Oakville

Time: 4 p.m. to 8 p.m.

If you are unable to attend the PIC, and wish to obtain additional information about the study or make any comments, please contact:
