

# Take better control of your future...

**With the help of  
Professional Advice  
and Independent  
Investment Products.**

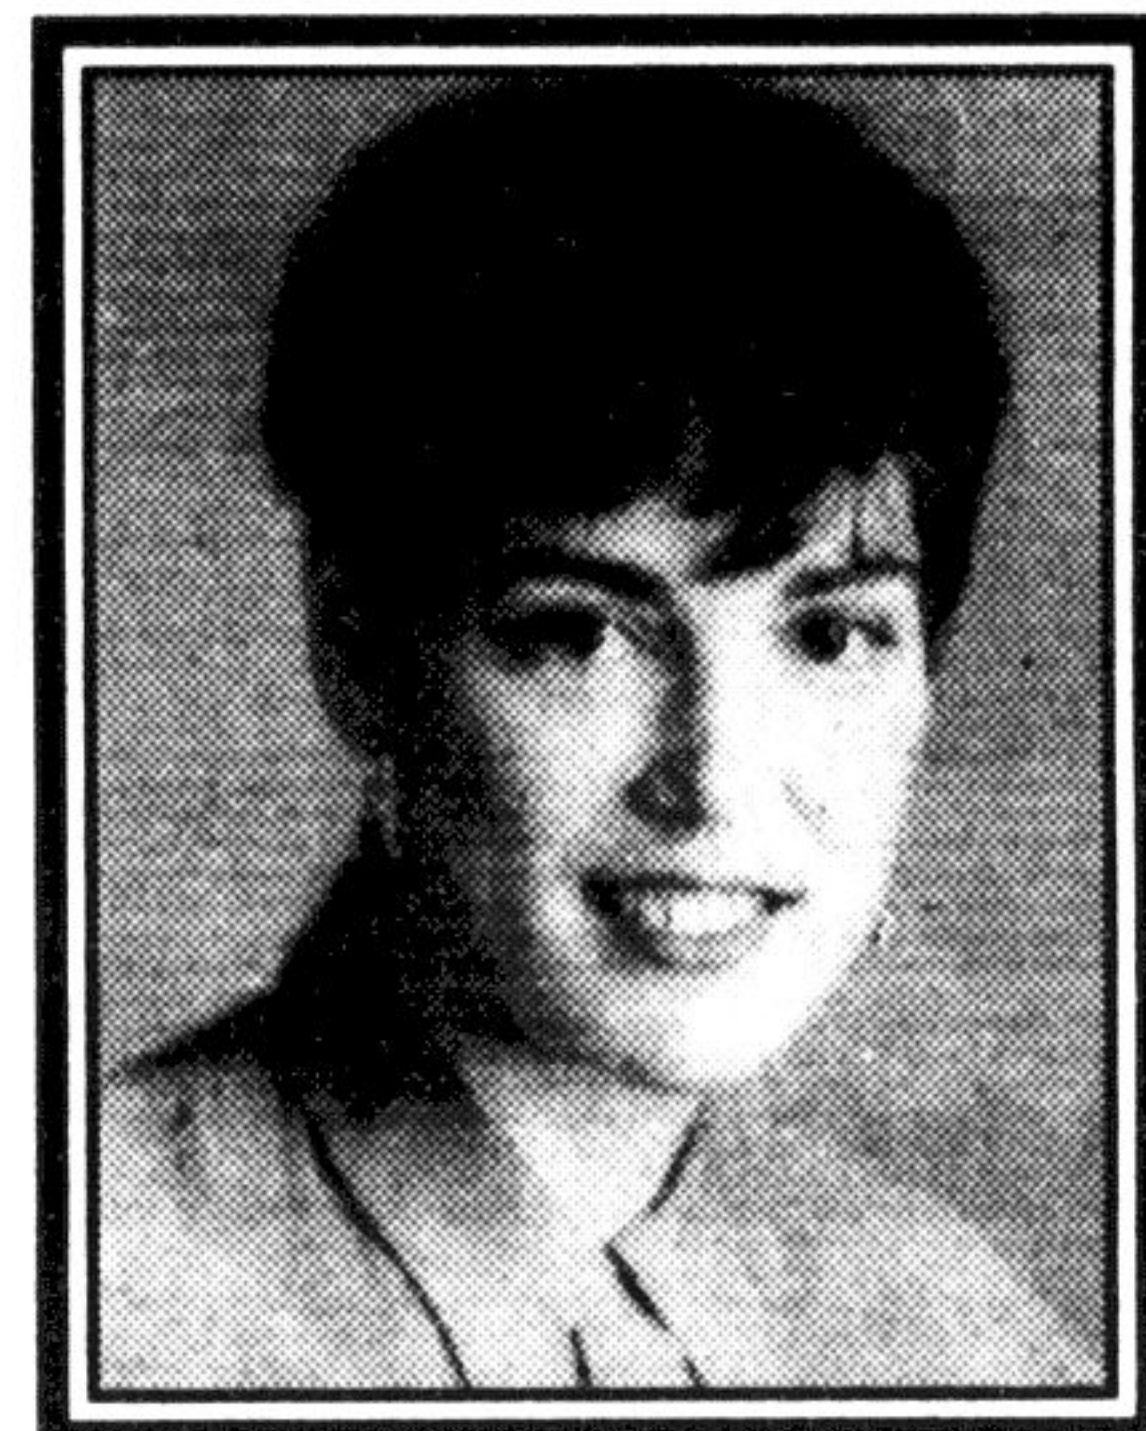

**Y**ou may have more control over your future than you think. The advice you get today can be just as important as the goals you set for your future.

This is especially true when it comes to investing for your retirement. With investment growth influenced by factors beyond your control such as inflation, low interest rates, and unpredictable Government pensions, there may not be enough to fund the road ahead. That's why developing a customized financial plan and maximizing the growth potential of your RRSP is an essential first step in taking better control of your financial future. With the help of a Certified Financial Planner, you can determine your needs and invest in any of the 2000+ independent mutual, segregated, and labour-sponsored funds available today.

Call today for more information on what I can do to help you realize your life goals. We have extended hours until February 29th.
