The Champion

Healing can mean facing down a painful past. But in the Full Moon Women's Healing Circle, it mostly means embracing a happy and fulfilled present.

"The emphasis is on what's the most positive in my life," said circle leader Karleen Heisler. "Everybody brings their

strength to the circle. We're tapping into the feminine. The goddess energy."

Devoting herself to helping others through everything from prayer circles to psychic consultations has taught Ms Heisler that suffering doesn't run along gender lines.

And so to everyone she extends her healing services — all but the circle, which trades in on the mysterious, magnetic, feminine power of the moon.

"Everything in nature has a masculine and a feminine," explained Ms Heisler. "Since we are women, we embody the feminine principle."

But that can be sacrificed in the fight for respect in the day-to-day world.

"There's very little we have that's exclusive to us," said Ms Heisler. "I've been asked repeatedly if the men could join us and I've said no."

Keeping the circle separate is a way to help women reconnect with their own brand of power.

That renewed vigour can lead to positive change.

"It's important for women to educate themselves and strengthen themselves," said Ms Heisler. "It starts with a small awareness, understanding the importance of our role."
